## Artemis SmartGARP UK Equity Fund (the “fund”)

The fund is managed by Artemis Fund Managers Limited.

ISIN:	GB00B2PLJM64
Class:	I accumulation units, GBP

This key investor information document is accurate as at 07 February 2025.

### OBJECTIVES AND INVESTMENT POLICY

#### Objective

To grow capital over a five year period.

#### Investment policy

##### What the fund invests in

- 80% to 100% in company shares.
- Up to 20% in bonds, cash and near cash, other transferable securities, other funds (up to 10%) managed by Artemis and third party funds, money market instruments, and derivatives.

##### Use of derivatives

The fund may use derivatives for efficient portfolio management purposes to:

- reduce risk
- manage the fund efficiently.

##### Where the fund invests

- At least 80% in the United Kingdom.
- Up to 20% in other countries.

##### Industries the fund invests in

- Any

##### Other limitations specific to this fund

- None

##### Investment strategy

- The fund is actively managed.
- A proprietary tool called 'SmartGARP' is used as the foundation of the investment process. It screens the financial characteristics of companies by identifying those that are growing faster than the market but are trading on lower valuations than the market.
- The manager selects companies that in aggregate have good 'SmartGARP' characteristics. This tends to mean that the portfolio contains stocks that have lower valuations than the market average, upgrades to profit forecasts, and are under-owned by the investment community, while at the same time benefiting from helpful trends in the wider economy.

#### Benchmarks

##### FTSE All-Share Index TR

A widely-used indicator of the performance of the UK stockmarket, in which the fund invests. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

##### IA UK All Companies NR

A group of other asset managers' funds that invest in similar asset types as this fund, collated by the Investment Association. It acts as a 'comparator benchmark' against which the fund's performance can be compared. Management of the fund is not restricted by this benchmark.

#### Other information

**Dealing frequency:** Normally Monday to Friday except UK public holidays and non-dealing days. Visit [www.artemisfunds.com/non-dealing-days](http://www.artemisfunds.com/non-dealing-days) for more information. Instructions received before 12 noon UK time will be processed at 12 noon on the same day.

**Distribution policy:** This is an accumulation class. Income received is reinvested in the value of the fund.

### RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
- A risk indicator of “1” does not mean that the investment is “risk free”.

Risk indicator number is accurate as at: 31 December 2024.

**The risk indicator may not fully take into account the following risks and the following may affect fund performance:**

**Market volatility risk:** The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

**Currency risk:** The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.

Please refer to the fund's prospectus for full details of these and other risks which are applicable to this fund.

CHARGES FOR THE FUND

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.860%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The ongoing charges figure is an estimate rather than a historic figure because this better reflects the expected future charges. The charges may vary from year to year. The exact charges made for each financial year are contained in the fund's annual report.
- The annual management charge is taken from income.

For more information about charges, please see the fund's prospectus, which is available at [www.artemisfunds.com](http://www.artemisfunds.com) or [www.fundinfo.com](http://www.fundinfo.com).  
Charges are accurate as at: 31 October 2024, unless specified.

# BNY Mellon Global Emerging Markets Opportunities Fund

**INSTITUTIONAL SHARES W (ACCUMULATION) (ISIN: GB00BVRZK937)**

a sub-fund of BNY Mellon Investment Funds. This Fund is managed by BNY Mellon Fund Managers Limited

## Objectives and Investment Policy

### OBJECTIVE

To achieve capital growth over the long term (5 years or more).

### POLICY

#### The Fund will:

- invest in emerging markets globally; and
- invest at least 75% of the portfolio in equities (company shares) and equity-related securities in companies listed, traded, located or deriving at least half of their revenue or income from emerging market countries across the world. Emerging market countries are countries, which are progressing towards becoming advanced, usually displayed by some development in financial markets, the existence of some form of stock exchange and a regulatory body.

#### The Fund may:

- invest in money market instruments, deposits, cash and near cash;
- invest in other transferable securities;
- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and
- invest up to 10% in other collective investment schemes.

**Benchmark:** The Fund will measure its performance against the MSCI Emerging Markets NR Index as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of the asset class, sectors and geographical areas in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments subject to the investment objective and policies disclosed in the Prospectus. While the Fund's holdings may include constituents of the Benchmark, the selection of investments and their weightings in the portfolio are not influenced by the Benchmark. The investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

### OTHER INFORMATION

**Treatment of income:** net income generated will be retained within the Fund and reflected in the value of your shares.

**Dealing:** you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each business day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 500,000.

## Risk and Reward Profile

We have calculated the risk and reward indicator, as shown above. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility). It is not a guide to the future risk and reward rating of the Fund. The rating shown is not a target or guarantee and may shift over time. Even the lowest rating of 1 does not mean a risk-free investment.

This Fund is rated 6 because its historical value has shown relatively high volatility. With a Fund rating of 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.

### THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

**Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.

**Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

**Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the

value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

**Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

**Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.

**Geographic Concentration Risk:** Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.

**Concentration Risk:** A fall in the value of a single investment may have a significant impact on the value of the Fund because it typically invests in a limited number of investments.

**Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect ("Stock Connect") risk:** The Fund may invest in China A shares through Stock Connect programmes. These may be subject to regulatory changes and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

# Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.	
<b>ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST</b>

# Practical Information

**Legal Status:** The Fund is a sub-fund (part) of BNY Mellon Investment Funds ("BNY MIF"), an umbrella structure comprising different sub-funds. The assets of the Fund belong exclusively to that sub-fund and may not be used to discharge the liabilities of or claims against any other person or body, including BNY MIF or any other sub-fund within the umbrella.

**Documents:** Copies of the Prospectus, annual and semi-annual reports which are prepared for the umbrella may be obtained free of charge from [www.bny.com](http://www.bny.com) or from BNY Mellon Investment Management EMEA Limited, BNY Mellon Centre, 160 Queen Victoria Street, London EC4V 4LA. These documents are available in English.

**Share price:** The latest share price and other information, including how to buy or sell shares, are available from the website and address given above. Other share classes are offered by the Fund as set out in the Prospectus.

**Switching:** Investors may switch shares in the Fund for shares in other sub-funds of BNY MIF provided they satisfy the criteria applicable to investment in other sub-funds. Further information on switching is contained in the "Switching" section of the Prospectus.

**Liability statement:** BNY Mellon Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

**Depository:** NatWest Trustee and Depository Services Limited.

**Tax:** The tax legislation of the Fund's domicile may have an impact on your personal tax position. For further details, please speak to an adviser.

**Remuneration Policy:** Details of the up-to-date remuneration policy of BNY Mellon Fund Managers Limited including, but not limited to, a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits are available on [www.bny.com](http://www.bny.com). A paper copy will be made available free of charge upon request.

**Index Providers:** Further information about the index providers is set out under 'Benchmark Provider Disclaimers' in the Prospectus.

CT AMERICAN SMALLER COMPANIES FUND (US) (THE "FUND")

Class Z Accumulation Shares (GBP) GB00B8358Z89, a sub-fund of Columbia Threadneedle Investment Funds (UK) ICVC (the "Company"), regulated by the FCA.  
This sub-fund is managed by Threadneedle Investment Services Limited (the "Management Company") (part of the Columbia and Threadneedle group of companies).

Objectives and Investment Policy

- The Fund aims to achieve investment growth over the long term (5 years, or more). It also looks to outperform the Russell 2500 Index ("the Index") over rolling 3-year periods, after the deduction of charges.
- The Fund is actively managed, and invests at least 75% of its assets in shares of American smaller companies.
- The Fund considers American smaller companies to be those domiciled in the United States of America (US), or with significant US business operations, and which have a market size ranging from typically \$500 million to \$10 billion at the time of investment.
- The Index is regarded as an appropriate performance measure of shares in which the Fund invests and provides a suitable target benchmark against which Fund performance will be evaluated over time.
- The Investment Manager selects smaller companies considered to have good prospects for share price growth, from across different industries and economic sectors.
- The Investment Manager typically invests in fewer than 80 companies, which may include shares of some companies not within the Index.
- The Investment Manager also seeks to create a portfolio that compares favourably against the Index over rolling 12-month periods, when assessed using the Columbia Threadneedle ESG Materiality Rating model.
- This model (developed and owned by Columbia Threadneedle Investments) analyses company data to assess how effectively material environmental, social and governance (ESG) risks and opportunities are being managed.
- If sufficient data is available, the combined results are expressed as a numerical rating to indicate how much exposure a company has to material ESG risks and opportunities in a particular industry.
- Whilst the Fund may still invest in shares of companies that have poor ESG Materiality ratings, at least 50% of the portfolio is invested in companies with strong ratings.
- The Investment Manager engages with companies with a view to influencing management teams to address material ESG risks and improve their ESG practices.
- The Fund only invests in companies that follow good governance practices. It does not invest in companies which derive revenue from industries or activities above the thresholds shown: tobacco production (5%); nuclear weapons – indirect involvement (5%), conventional weapons – military, or civilian firearms (10%), and thermal coal – extraction or power generation (30%).
- The Fund excludes companies that have direct involvement in nuclear or controversial weapons, and companies determined to have breached international standards and principles.
- The Fund may invest in other securities, collective investment schemes (including funds managed by Columbia Threadneedle companies), money market instruments, deposits, and cash. Derivatives may only be held with the aim of reducing risk or managing the Fund more efficiently.
- Income from investments in the Fund will be added to the value of your shares.
- You can buy or sell shares in the Fund on any day that is a business day in London. You can find more detail on the investment objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see the Glossary available at columbiathreadneedle.com.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk,  
Typically lower rewards

Higher Risk,  
Typically higher rewards

- The Fund is rated 6 because historically it has shown a high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund holds assets which could prove difficult to sell. The Fund may have to lower the selling price, sell other investments or forego more appealing investment opportunities.
- The Fund may invest in derivatives (complex instruments linked to the rise and fall of the value of other assets) with the aim of reducing risk or minimising the cost of transactions. Such derivative transactions may benefit or negatively affect the performance of the Fund. The Manager does not intend that such use of derivatives will affect the overall risk profile of the Fund.
- The Fund applies a range of measures as part of its consideration of ESG factors, including the exclusion of investments involved in certain industries and/or activities. This reduces the investable universe, and may impact the performance of the Fund positively or negatively relative to a benchmark or other funds without such restrictions.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry Charge:	3.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the fund over a year

Ongoing Charges:	0.85%
------------------	-------

### Charges taken from the fund under certain specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure shown here is an estimate of the charges because recent changes made to the Fund mean that the historic figures do not accurately reflect its ongoing costs. The UK-UCITS' annual report for each financial year will include detail on the exact charges made.

For more information about charges please see the Fund's prospectus.

### Fidelity Funds - Global Healthcare Fund

a sub-fund of Fidelity Funds

Fidelity Funds - Global Healthcare Fund W-ACC-GBP

(ISIN:LU1033663300)

This fund is managed by FIL Investment Management (Luxembourg) S.à.r.l.

#### Objectives and Investment Policy

**Objective:** The fund aims to achieve capital growth over the long term.

**Investment Policy:** The fund invests at least 70% of its assets in equities of companies from anywhere in the world. The fund aims to make investments in companies that are involved in design, manufacture or sale of products and services in connection with health care, medicine or biotechnology. The fund may also invest in money market instruments on an ancillary basis.

**Investment Process:** In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry, economic conditions, and other factors.

A minimum of 80% of the fund's investments are used to meet the environmental or social characteristics promoted by the fund, as described in the fund's investment policy. In addition, the Investment Manager may consider ESG ratings and other ESG criteria when assessing investment risks and opportunities and may invest in securities of issuers with low but improving ESG profiles.

The fund assesses the ESG characteristics of at least 90% of its assets. The fund's investment universe is reduced by at least 20% due to the exclusion of issuers based on their ESG characteristics. Through the investment management process, the Investment Manager aims to ensure that investee companies follow good governance practices.

For more information, see "Sustainable Investing and ESG Integration" and the Sustainability Annex.

**Derivatives and Techniques:** The fund may use derivatives for hedging and for efficient portfolio management.

**Base Currency:** EUR

**Benchmark:** MSCI AC World Health Care Index, a broad market index that does not take into account ESG characteristics. Used for: investment selection, risk monitoring, and performance comparison.

**Risk Management Method:** Commitment.

**Distribution:** As this is a non-distributing share class, dividends are re-invested.

#### Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This fund is categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average.

Additional risks: emerging markets.

**Recommended holding period:** This product may appeal to investors who plan to hold their investment for a recommended holding period of at least 5 years.

## Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.	
Charges taken from the fund over a year	
Ongoing charges	1.05%
Charges taken from the fund under certain specific conditions	
Performance fee	N/A

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure is based on expenses for the year ending 30/04/2024. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

## Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund was launched on 1 September 2000. This class was launched on 11 March 2014.

The currency of the Fund is EUR, while the currency of the Class is GBP. The return may increase or decrease as a result of currency fluctuations.

**Additional Information:** You may sell (redeem) or switch some or all of your shares to another fund on any Valuation Day. As this is a non-distributing share class, dividends are re-invested.

This key information document describes a sub-fund of Fidelity Funds. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Funds.

The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from FIL Investment Management (Luxembourg) S.à.r.l.

These documents and details of the Remuneration Policy are available via [www.fidelityinternational.com](http://www.fidelityinternational.com).

The Net Asset Value of the fund is available at the registered office of FIL Investment Management (Luxembourg) S.à.r.l., and at [www.fidelityinternational.com](http://www.fidelityinternational.com).

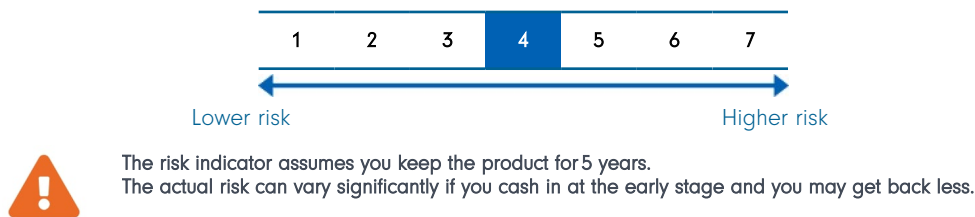

**Depository:** Brown Brothers Harriman (Luxembourg) S.C.A.

### Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds; who plan to hold their investment for a recommended holding period of at least 5 years; who seek capital growth over the recommended holding period; and who understand the risk of losing some or all of the capital invested.

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Additional risks: emerging markets.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If FIL Investment Management (Luxembourg) S.à.r.l. is not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years Example investment : GBP 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	5,380 GBP	4,470 GBP
	Average return each year	-46.2%	-14.9%
Unfavourable	What you might get back after costs	9,160 GBP	9,160 GBP
	Average return each year	-8.4%	-1.7%
Moderate	What you might get back after costs	11,020 GBP	17,000 GBP
	Average return each year	10.2%	11.2%
Favourable	What you might get back after costs	12,580 GBP	19,860 GBP
	Average return each year	25.8%	14.7%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 03/2024 and 03/2025.

The moderate scenario occurred for an investment between 06/2017 and 06/2022.

The favourable scenario occurred for an investment between 12/2016 and 12/2021.

### What happens if FIL Investment Management (Luxembourg) S.à.r.l. is unable to pay out?

The assets and liabilities of this product are segregated from those of FIL Investment Management (Luxembourg) S.à.r.l. There is no cross-liability between these entities, and the product would not be liable if FIL Investment Management (Luxembourg) S.à.r.l. or any delegated service provider were to fail or default.

Shares of this product are traded on a stock market and settlement of such transactions are not affected by the position of FIL Investment Management (Luxembourg) S.à.r.l.

This product does not participate in an investor compensation scheme.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	152 GBP	1,059 GBP
<b>Annual cost impact (*)</b>	1.5%	1.7% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.9% before costs and 11.2% after costs.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	We do not charge an entry fee.	0 GBP
<b>Exit costs</b>	We do not charge an exit fee for this product.	0 GBP
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	1.05% of the value of your investment per year. This is an estimate based on actual costs over the last year.	107 GBP
<b>Transaction costs</b>	0.45% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	46 GBP
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	0 GBP

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product.

**Order Processing:** Requests to buy, switch or sell fund shares that are received and accepted by the Management Company by 4:00 PM CET (3:00 PM UK time) on any Valuation Day are ordinarily processed at the NAV for that Valuation Day. Settlement normally occurs within 3 business days.

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Fidelity Index Europe ex UK Fund

a sub-fund of Fidelity Investment Funds

Fidelity Index Europe ex UK Fund P Accumulation Shares  
(ISIN:GB00BHZK8B07)

This fund is managed by FIL Investment Services (UK) Limited

### Objectives and Investment Policy

**Objective:** The fund aims to track the performance (before fees and expenses are applied) of the MSCI Europe ex UK (Gross Total Return) Index, thereby seeking to increase the value of your investment over 5 years or more.

**Investment Policy:** The fund uses an index tracking (passive) investment approach whereby it aims to replicate the composition of the index. However, for practical reasons and/or to reduce the dealing costs of the fund, it may not invest in every company share in the index or at its weighting within the index.

**Investment Process :** As well as investing directly in company shares, the fund will achieve exposure indirectly using derivatives, for example at the time of cash inflows to remain fully invested or to reduce transaction costs. To manage the cash position, the fund may invest in other investment types such as liquidity funds (including those managed by Fidelity).

**Derivatives and Techniques:** Derivatives are investments whose value is linked to another investment, or to the performance of a stock exchange or to some other variable factor, such as interest rates and used to reduce risk or transaction costs and/or to generate extra income or further increase the value of your investment.

**Additional information:** Income earned by the fund is paid into the fund and reflected by an increase in the value of each share. Shares can usually be bought and sold each business day of the fund. The fund's performance can be compared to the MSCI Europe ex-UK (Gross total return) Index.

Funds that are indexed to an MSCI index are not sponsored, endorsed, or promoted by MSCI, and MSCI bears no liability with respect to any such funds or securities or any index on which the funds or securities are based. The Prospectus contains a more detailed description of the limited relationship MSCI has with Fidelity and any related funds.

### Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high. Fidelity International's partial swing pricing policy can cause differences in the fund's performance versus the index. A fund's performance tracking may be affected if the times at which a fund and its benchmark index are priced are different. The fund is priced at midday UK time, and the index is priced when the relevant stock markets close. This can cause apparent differences in the fund's performance versus that of the index than if the fund and the index were priced at the same time.

## Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.	
Charges taken from the fund over a year	
Ongoing charges	0.10%
Charges taken from the fund under certain specific conditions	
Performance fee	N/A

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure is based on expenses for the year ending 29/02/2024. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

## Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The fund and the class were launched on 22 January 2014.

Past performance has been calculated in GBP.

If applicable, events in the fund's life which may have affected the performance history are highlighted as an '\*\*' in the chart, which may include changes to the fund's objective and details of such events can be found on our website or by requesting it from your appointed representative or your usual Fidelity contact. If applicable, the Objectives and Investment Policy section shall refer to a benchmark and information on previous benchmarks may be found in the annual report and accounts.

# First Sentier Global Property Securities Fund Class B (Accumulation) GBP

a sub-fund of First Sentier Investors ICVC (the Company)

ISIN GB00B1F76N79

First Sentier Investors (UK) Funds Limited, the authorised corporate director of the Company

## Objectives and investment policy

**Objective:** The Fund aims to achieve an investment return from income and capital growth over the long term (at least five years).

**Policy:** The Fund invests at least 70% in shares of companies that are involved in property around the world and are listed on exchanges worldwide.

The Fund does not invest directly in property.

The Fund may invest up to 10% in other funds.

The Fund will only use derivatives to reduce risk or to manage the Fund more efficiently in limited cases.

**Strategy:** The Manager's strategy is to focus on quality companies that it would expect to outperform over the long-term (at least 5 years) especially in down markets. The Fund strategy is to invest in real estate investment trusts or companies that own, develop or manage real property across different geographic markets.

**Benchmark:** The Fund's performance is compared against the value of the FTSE EPRA Nareit Developed Index.

The Fund's manager may use its discretion when deciding which investments should be held by the Fund.

The Fund is actively managed; investment of the Fund's assets is not constrained by the benchmark composition or sector requirements and the Fund's manager has discretion within the Fund's investment policy to invest in assets without regard to the benchmark.

**Recommendation:** This Fund may not be appropriate for investors who plan to withdraw their money within five years.

The Fund will not pay any income out; instead any income will be reflected in the value of your shares.

You can buy and sell shares in the Fund on any business day. As long as we receive your instruction before 12 noon (UK time), shares will be bought and sold at that day's price.

## Risk and reward profile

- The synthetic risk reward indicator (the SRRI) rating is not a measure of the risk of you losing the entire value of your investment but describes how much the value of the share class has gone up and down in the past. Where a share class has not yet launched, the SRRI is calculated using representative data.
- The SRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the share class.
- We cannot guarantee that the rating of the share class will remain the same; it may change over time.
- Even the lowest rating 1 does not mean a risk free investment.
- On a scale of 1 (less risky) to 7 (more risky), this share class has a rating of 6 due to its past performance (or representative data) and the nature of its investments.
- Categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level, and 6-7 a high level.

- Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.

- The value of the Fund and its return is not guaranteed and may fall as well as rise. You may get back significantly less than you originally invested. Material risks not adequately captured by the SRRI:

- **Emerging market risk:** Emerging markets tend to be more sensitive to economic and political conditions than developed markets. Other factors include greater liquidity risk, restrictions on investment or transfer of assets, failed/delayed settlement and difficulties valuing securities.

- **Property securities risk:** the Fund invests in the shares of companies that are involved in property (such as real estate investment trusts) rather than in property itself. The value of these investments may fluctuate more than the underlying property assets.

- **Single sector risk:** investing in a single economic sector may be riskier than investing in a number of different sectors. Investing in a larger number of sectors helps to spread risk.

- **Currency risk:** the Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.

For further information on risks, please refer to the Risk Factors section in the Company's prospectus.

## Charges for this Fund

### Charges taken from the fund under certain specific conditions

Performance fee	N/A
-----------------	-----

The entry and exit charges shown are the maximum you will need to pay. In some cases you might pay less - you can find out the actual entry and exit charges from your financial adviser.

The ongoing charge is based on expenses for the year ending July 2024. It may vary from year to year. It excludes portfolio transaction costs which are paid from assets of the Fund and performance fees, if any.

There are fees for switching between sub-funds. The fee for switching into the Fund is 0.5%.

The fees and expenses are charged against the capital of the Fund. Deducting expenses from capital reduces the potential for capital growth.

## FTF ClearBridge Global Infrastructure Income Fund

**Class W (inc) GBP • ISIN GB00BMF7D779 • A sub-fund of Franklin Templeton Funds**

The management company is Franklin Templeton Fund Management Limited which is referred to in this document as the authorised corporate director or "ACD".

For the purposes of the UK Sustainability Disclosure Requirements ("UK SDR"), a sustainable investment label helps investors find funds that have a specific sustainability objective. This Fund does not have a UK sustainable investment label because it does not have a specific sustainability objective.

### Objectives and Investment Policy

FTF ClearBridge Global Infrastructure Income Fund (the "Fund") aims to generate income and increase in value through investment growth. Over periods of five years, the Fund seeks to achieve an average annual return of OECD G7 Inflation Index + 5.5%, before the deduction of all fees and costs.

There is no guarantee that the Fund will achieve this return over this or any other time period. Capital invested is at risk and you may get back less than you paid in.

#### Core investment

The Fund invests at least 80% of the Fund's assets in a diverse range of shares of companies listed on the stock exchanges of developed countries. Such companies will operate across a variety of infrastructure sub-sectors, which may include gas, electricity, water, toll-roads, airports, rail and communication.

#### Other investments

The Fund may also invest in:

- recently issued shares of companies which are not yet listed but which are expected to be listed within 12 months of purchase;
- other transferable securities;
- cash and cash equivalents;
- money market instruments; and
- other collective investment schemes (which may include collective investment schemes operated by the ACD or any of its associates). The Fund may not invest more than 10% in other collective investment schemes.

The Fund can use derivatives for efficient portfolio management (managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth). However, the Fund can introduce more speculative use of derivatives in the future on 60 days' notice to investors. Derivatives are financial contracts whose value is linked to the price of another asset (e.g. indices, interest rates, share prices or currencies). Up to 10% of the Fund may be invested in derivatives and recently issued securities.

While the Fund will normally be invested in accordance with the limits set out above, the Investment Manager has the freedom to invest outside of these limits, sometimes significantly, where the Investment Manager considers that, due to prevailing market conditions, it is in the interests of the Fund and its shareholders to do so.

#### Geographic locations (where we invest)

The Fund may invest in companies operating anywhere in the world.

Up to 20% of the Fund's assets may be invested in shares of companies, including depositary receipts (a type of listed security which enables investors to hold shares in foreign companies), issued by companies in emerging markets (countries whose economy and financial markets are still developing).

#### How we select investments (investment strategy)

This Fund is actively managed, which means that the Investment Manager does not copy a benchmark when selecting investments for the Fund. The Fund usually invests in shares of around 30 – 60 companies, although the Investment Manager may invest in fewer or more companies where it considers this to be in the interests of the Fund.

The Investment Manager selects securities based on their potential return and risk characteristics and role in achieving the Fund's investment objective. The portfolio is not constrained by any market index. The Investment Manager seeks to select infrastructure and utility companies which operate under a regulatory regime, or concession arrangement which provides the Investment Manager with a predictable cash flow and minimum yield. In considering yield, the Investment Manager looks at the dividend yield, the dividend per share expectations over a five year period, and the relationship of a company's dividends and cash flows, over an estimated holding period.

#### ESG (environmental, social, and governance) factors

The Investment Manager integrates financial and non-financial considerations in its assessment of a prospective investment. In selecting the Fund's investments, the Investment Manager assesses prospective investments against various ESG factors, depending on the sector of the investee company. These ESG factors are used to inform the Investment Manager's wider assessment of the value and financial attractiveness of each potential investment and exposures are adjusted accordingly. The Investment Manager may exclude investments depending on their assessment of ESG factors. In addition, the Investment Manager applies automatic exclusions for investments in certain sectors. For more detailed information about how the Investment Manager considers ESG, and a list of exclusions, please see the Fund's 'UK SDR: Consumer Facing Disclosures' available at [www.franklintempleton.co.uk/CFD\\_33767](http://www.franklintempleton.co.uk/CFD_33767) and the investment objective and policy in the prospectus, available at [www.franklintempleton.co.uk/ftfddocuments](http://www.franklintempleton.co.uk/ftfddocuments) in the "Additional Documents" tab.

#### Additional Information

• The Fund's performance can be measured against its performance target. It can also be measured against the FTSE Global Core Infrastructure 50/50 Index, which provides a broad representation of the listed infrastructure industry.

• You may request the sale of your shares in the Fund on any UK business day.

**Recommendation:** this Fund may not be appropriate for investors who plan to withdraw their money within five years.

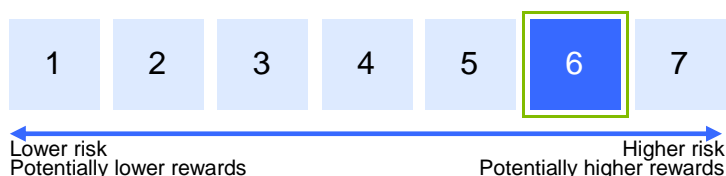

#### Terms to Understand

**Transferable securities:** investments such as shares or debt that can be bought and sold between investors.

**Shares of companies (equities):** securities that represent an ownership stake in a company.

For the income share class shown in this document, dividend income is distributed to investors.

## Risk and Reward Profile

### What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

### Why is the Fund in this specific category?

The Fund does not offer any capital guarantee or protection and you may not get back the amount invested. The Fund is in its risk/reward category because a concentrated investment (the Fund holds fewer investments than many other funds) in shares of infrastructure companies from various countries and sectors have historically been subject to relatively large

fluctuations in value. As a result, the performance of the Fund can fluctuate significantly over relatively short time periods.

### Risks materially relevant not adequately captured by the indicator:

**Concentration risk:** the risk that arises when a fund invests in relatively few holdings, few sectors or a restricted geographic area. Performance may be more volatile than a fund with a greater number of securities.

**Investment in infrastructure:** the fund invests in shares of infrastructure companies, and the value of these shares can be negatively affected by economic or regulatory occurrences affecting their industries. Investments in new infrastructure projects carry risks where they may not be completed within the budget, agreed timeframe or specifications. Operational and supply disruptions can also have a negative effect on the value of the company's shares.

**Derivative instruments risk:** the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks.

**Emerging markets risk:** the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.

**Equity risk:** prices of equities may be affected by factors such as economic, political, market, and issuer-specific changes. Such changes may adversely affect the value of the equities regardless of company-specific performance.

**Foreign currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

**Liquidity risk:** the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or

pandemics. Reduced liquidity may have a negative impact on the price of the assets.

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Factors" section of the current prospectus of Franklin Templeton Funds.

## Charges

### One-off charges taken before or after you invest

Entry charge	Not applicable
Exit charge	Not applicable
<i>This is the maximum that might be taken out of your money before it is invested (in the case of the entry charge) or before money is paid out to you when you sell shares in the Fund (in the case of the exit charge).</i>	
<b>Charges taken from the Fund over a year</b>	
Ongoing charges	0.82%
<b>Charges taken from the Fund under certain specific conditions</b>	
Performance fee	Not applicable

The ongoing charges figure is based on the expenses for the Fund for the year to December 2024 and it may vary from year to year. It is an estimate of the charges made to the Fund over a year to cover the costs of managing, operating, and distributing the Fund. Charges are deducted from the value of the assets held by the Fund and are reflected in the daily price that is used to buy and sell shares in the Fund. These charges reduce the potential growth of your investment and/or the income paid from it. For example, a Fund with an ongoing charges figure of 0.5%, means that an investor would pay £5 in charges over the course of a year for every £1,000 they had invested. Please note that the ongoing charge excludes some other costs (such as those incurred by the Fund when buying and selling securities) so total costs paid by investors each year may be slightly higher than the ongoing charges figure.

For detailed information about charges, please refer to the "Fees and Charges" section of the current prospectus of Franklin Templeton Funds and the Fund's annual report for details on the exact charges made.

## Past Performance

- Past performance is not a guide to future performance.
- The past performance shown here includes all the ongoing charges.
- Past performance is calculated in GBP.
- The Fund was launched on 16 September 2022 to receive the assets of FTF ClearBridge Global Infrastructure Income Fund, which was a sub-fund of Franklin Templeton Funds II - another UK UCITS Scheme managed by the ACD (the "merging fund"), which was very similar to the Fund. More information about the merger is available on our website. Because of the similarities between the merging fund and the Fund, we have used the past performance of Class X Inc. GBP in the merging fund for the period from the start of the performance chart up to the launch date of the Fund.
- We measure performance against the Fund's performance target, OECD G7 Inflation Index + 5.5%

## Product

Goldman Sachs India Equity Portfolio (the "**Portfolio**"), a sub-fund of Goldman Sachs Funds SICAV (the "**Fund**"), Class R Shares (GBP)

ISIN: LU0858290173

Goldman Sachs Asset Management B.V. is the PRIIP manufacturer of the Fund (the "**Manufacturer**") and forms part of Goldman Sachs group of companies.

**Consult:** <https://www.gsam.com/content/gsam/uk/en/advisers/about-gsam/contact-us.html> or call GSAM European Shareholder Services at +44 20 7774 6366 for more information.

The Dutch Authority for the Financial Markets is responsible for supervising the Manufacturer in relation to this Key Information Document.

The Manufacturer is authorised in the Netherlands and regulated by the Dutch Authority for the Financial Markets, and relies on passporting rights under the UCITS Directive to manage the Fund on a cross-border basis and to market the Fund within the European Union.

This Fund is authorised in Luxembourg.

This Key Information Document is dated 14/02/2025.

## What is this product?

### Type

Goldman Sachs Funds is an undertaking for collective investment organised under the laws of the Grand Duchy of Luxembourg organised as a société d'investissement à capital variable (S.I.C.A.V.) and qualifies as a UCITS. The Fund is registered pursuant to Part I of the Law of 17 December 2010 and is established as an "umbrella structure" comprised of a number of Portfolios. You are purchasing a class of shares in the Portfolio.

### Term

The term of the Portfolio and of the share class is unlimited and therefore there is no maturity date. The Manufacturer may not unilaterally terminate the Portfolio, however, the board of directors of the Fund and/or the investors of the Portfolio may in certain circumstances set out in the Prospectus and constitutive document of the Fund, unilaterally terminate the Fund, the Portfolio and/or the share class. Cases of automatic termination may be foreseen by laws and regulations applicable to the Fund.

### Objectives

The Portfolio seeks to provide capital growth over the longer term.

The Portfolio will mostly hold shares or similar instruments relating to Indian companies. Such companies are either based in or earn most of their profits or revenues from India. The Portfolio may also invest in companies which are based anywhere in the world.

The Portfolio will not invest more than 33% of its assets in bonds issued by corporate or government entities, convertibles (securities that can be converted into other types of securities), money market instruments and non-share related instruments.

The Portfolio may use derivative instruments for efficient portfolio management purposes, to help manage risks and for investment purposes in order to seek to increase return. A derivative instrument is a contract between two or more parties whose value depends on the rise and fall of other underlying assets.

Shares in the Portfolio may be redeemed daily (on each business day) on demand.

The Portfolio is actively managed and references the MSCI India IMI Index (Net TR) (GBP) (the "Benchmark") for the purposes of setting discretionary internal risk thresholds which may reference deviations from the Benchmark.

The Investment Adviser has full discretion over the composition of the assets in the Portfolio. While the Portfolio will generally hold assets that are components of the Benchmark, it can invest in such components in different proportions, and it can hold assets which are not components of the Benchmark. Therefore returns may deviate materially from the performance of the specified reference Benchmark.

The Portfolio promotes environmental and/or social characteristics and, while it does not have a sustainable investment objective, it will hold a minimum proportion of sustainable investments as further detailed in the pre contractual disclosure for the Portfolio contained within the Prospectus.

As part of its investment process, the Investment Adviser will implement a multi-strategy approach to ESG which may consist of the application of exclusionary screens and the integration of ESG factors alongside traditional factors.

Income (net of expenses) is distributed on an annual basis.

The Portfolio currency is USD. The share class currency is GBP.

The return of the Portfolio depends on the performance of the Portfolio, which is directly related to the performance of its investments. The risk and reward profile of the Portfolio described in this key information document assumes that you hold your investments in the Portfolio for at least the Recommended Holding Period as set out below under the heading "How long should I hold it and can I take money early out."

Please see the section "How long should I hold it and can I take money out early?" below for additional details (including restrictions and/or penalties) on the ability to redeem your investment in the Fund.

For full investment objective and policy details see the Prospectus.

### Intended retail investor

Shares in the Portfolio are suitable for any investor (i) for whom an investment in the Portfolio does not constitute a complete investment program; (ii) who fully understands and is willing to assume that the Portfolio has a risk of 4 out of 7, which is medium risk class; (iii) who is neither a U.S. Person nor subscribing for Shares on behalf of one or more U.S. Persons; (iv) who understands that they may not recover the invested amount; and (v) who are looking for medium term investment. The investor could be using an execution only platform and acting without any advice from an investment professional.

**Depository:** State Street Bank International GmbH Luxembourg Branch

**Further Information:** The Prospectus, annual and semi-annual reports and latest share price are available free of charge from the Fund's registered office, the Manager, administrator or the Portfolio's distributors. The Prospectus is available in English, French, German, Italian and Spanish. This document is for a single Portfolio of the Fund and the Prospectus, annual and semi-annual reports is for the entire Fund. The Fund is an investment company with segregated liability between portfolios under Luxembourg law. Therefore, the assets of the Portfolio you have invested in should not be used to pay the liabilities of other portfolios. However, this has not been tested in other jurisdictions.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for the Recommended Holding Period of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Portfolio is not able to pay you.

We have classified this Portfolio as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Portfolio's capacity to pay you.

**Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Other Material Risks relevant to the Portfolio not included in the summary risk indicator are set out in the Prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If the Fund is not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		GBP 10 000	
		If you exit after 1 year	If you exit after 5 years
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	GBP 1 550	GBP 2 440
	Average return each year	-84.50%	-24.58%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	GBP 6 990	GBP 9 960
	Average return each year	-30.10%	-0.08%
<b>Moderate</b>	<b>What you might get back after costs</b>	GBP 10 600	GBP 15 980
	Average return each year	6.00%	9.83%
<b>Favourable</b>	<b>What you might get back after costs</b>	GBP 15 720	GBP 21 060
	Average return each year	57.20%	16.06%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between 2015 and 2020.

Moderate scenario: this type of scenario occurred for an investment between 2017 and 2022.

Favourable scenario: this type of scenario occurred for an investment between 2019 and 2024.

### What happens if Goldman Sachs Asset Management B.V. is unable to pay out?

You may not face a financial loss due to the default of the Manufacturer.

The assets of the Portfolio and the Fund are held in safekeeping by its Depositary. In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary).

Losses are not covered by an investor's compensation or guaranteed scheme.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the Portfolio is a part of another product, for example a unit-linked insurance, there may be additional costs for that product.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- GBP 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	GBP 675	GBP 1 900
<b>Annual cost impact (*)</b>	6.8%	2.5% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.3 % before costs and 9.8 % after costs.

These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.50% of the amount you pay in when entering this investment.	Up to GBP 550
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	GBP 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.04% of the value of your investment per year. This percentage is based on actual costs over the last year.	GBP 104
Transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 21
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	GBP 0

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years.

The Manufacturer considers this to be an appropriate period of time for the Portfolio to be able to implement its strategy and potentially generate returns. This is not a recommendation to redeem your investment after this time and while longer holding periods allow greater time for the Portfolio to implement its strategy, the outcome of any holding period with respect to investment returns is not guaranteed.

Investors may redeem their shares on any Business Day (as defined in the Prospectus) by giving prior written notice as further described in the Prospectus.

Redeeming your shares in the Portfolio before the recommended holding period may be detrimental in terms of your return and may increase the risks associated with your investment, which may lead to the realisation of a loss.

### How can I complain?

If you choose to invest in the Portfolio and subsequently have a complaint about it or the conduct of the Manufacturer or any distributor of the Portfolio, you should in the first instance contact the Shareholder Service team at Goldman Sachs Asset Management on +44 207 774 6366, via email at [ESS@gs.com](mailto:ESS@gs.com), by post Goldman Sachs Asset Management B.V., Prinses Beatrixlaan 35, 2595 AK, The Hague, The Netherlands or by consulting the following website, <https://www.gsam.com/content/gsam/uk/en/advisers/about-gsam/contact-us.html>. If your complaint is not satisfactorily resolved, you may also complain directly to the Financial Ombudsman Service ([www.financial-ombudsman.org.uk](http://www.financial-ombudsman.org.uk)).

## Investment Fund Services

# IFSL Titan Global Blue Chip Fund Class B Shares

A Sub-fund of the IFSL Titan UCITS OEIC (ISIN Income GB00BZ3T3X22, Accumulation GB00BZ3T3W15)

This Fund is managed by Investment Fund Services Limited (IFSL)

### Objectives and Investment Policy

The aim of the Fund is to provide capital growth, that is, to increase the value of your investment, over a minimum of 5 years.

At least 80% of the Fund will be invested globally in the shares of companies.

The Fund is actively managed, which means the Investment Manager decides which investments to buy or sell and when. Investments will be made in large companies whose market capitalisation (the total market value of a company's shares) is in excess of £1billion.

The Fund may invest across a range of developed markets globally with no minimum exposure to any one market or geographical region although no more than 80% will be invested in any one country.

The Investment Manager focuses on high quality companies, typically in North American and European markets, that are expected to benefit from the increase in global population, rising wealth and/or developments in technology.

The size of the holding will be determined by the value offered by a company given its growth prospects. The intention is to hold shares for 3 years or more, although companies may be sold sooner if they no longer fit the Investment Manager's investment philosophy.

The Fund will typically hold a fairly concentrated portfolio of around 35 companies operating in a range of different sectors.

The Fund will normally be fully invested save for an amount to enable ready settlement of liabilities (including redemption of shares) and efficient management of the Fund both generally and in relation to strategic objectives, however may hold higher cash balances (up to 20%) in extreme market conditions.

The Fund may also hold money market instruments (a type of short-term loan) and funds which invest in these instruments for liquidity management purposes.

The Fund may use derivatives and forward transactions linked to exchange rates for the purpose of reducing currency risk, also known as hedging, but it is anticipated this will be infrequent. The Fund seeks to obtain its objective by investing in the equity securities of large and diverse businesses, generally with a market cap in excess of £1billion and operating in multiple geographic locations and/or industry sectors.

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

The Fund's investment policy puts it in the IA Global sector. You may want to assess the Fund's performance compared to the performance of this sector.

The Fund pays income. If you wish to receive this please tell us. If you do not want to receive income you will be given accumulation shares which means income is invested back into the Fund and reflected in the price of your shares.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

### Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio are used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 5 because its investments have experienced moderate to high volatility in the past. The Fund's volatility is affected by various risks, including:

The Fund will be exposed to financial markets and market conditions can change rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

The Fund will have exposure to overseas markets, either directly or indirectly, and is therefore exposed to currency risk. As a result, the value of your investment can be affected by changes in exchange rates.

The Fund has a concentrated portfolio, which means it has greater exposure to a smaller number of assets. Therefore, the performance of a single investment in the Fund has a greater effect on the price of the Fund.

In certain market conditions, the Fund may not be able to sell one or more of its assets for the full value, or at all. This could affect the performance of the Fund and could cause the Fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

A company that we deal with may renege on its obligations, costing the Fund money.

The Fund may enter into various financial contracts (known as derivatives) in an attempt to protect the value of the Fund's assets or to reduce the costs of investing, although this may not be achieved.

Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the Fund, or inconvenience to investors.

Investors are encouraged to read the 'risk factors' section of the Fund's prospectus to find a more extensive list of the risks that apply to this Fund.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses as at 30/11/2024. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see Sections 25 - 27 of the Fund's Prospectus, which is available at [www.ifslfunds.com](http://www.ifslfunds.com).

### One-off charges taken before or after you invest

Entry Charge	0.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested.

### Charges taken from the fund over each year

Ongoing Charges	0.67%

## Past Performance

### Historic performance to 31 December 2024

Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up.

Performance returns are based on the net asset value with distributable income reinvested and takes account of all ongoing charges, but not entry and exit charges. The past performance of this share class is calculated in GBP.

This Fund was launched on 3 July 2017.

This share class was launched on 3 July 2017.

## Investment Fund Services

# IFSL Titan Global Equity Fund T Shares

A Sub-fund of the IFSL Titan UCITS OEIC (ISIN Accumulation: GB00BS1J9N71)

This Fund is managed by Investment Fund Services Limited (IFSL)

### Objectives and Investment Policy

The aim of the Fund is to increase in value, over a minimum of 5 years, through a combination of capital growth, which is profit on investments held, and income, which is money paid out of investments such as dividends from shares and interest from bonds.

The Fund is actively managed, which means the Investment Manager decides which investments to buy or sell and when.

At least 80% of the Fund will be invested in a range of global shares of companies, also known as equities, across both developed and emerging markets, with no minimum or maximum exposure to any geographic region. This may include exposure through holdings in investment trusts, funds and ETFs/ETCs, although this will not exceed 10% of the Fund.

Up to 20% of the Fund may have exposure to different asset classes including real assets, for example property and commodities (e.g. gold and oil), government and corporate bonds (both investment grade and sub-investment grade) and money market funds. Any exposure to real assets will only be through investment trusts, funds and ETFs/ETCs.

The Fund may hold up to 20% in cash to enable the ready settlement of liabilities, for the efficient management of the portfolio or in pursuit of the Fund's investment objective.

The Fund may use derivatives (instruments whose returns are linked to another asset, market or other variable factor) to reduce risk in the Fund (also known as hedging). The Fund will not always hold these instruments however at times they may be held for extended periods.

The Investment Manager's style is biased towards the 'quality/growth' approach to stock selection which is where the Investment Manager invests in shares of

companies that have the potential to deliver strong returns on capital, have low levels of debt and use their strong cash flow to reinvest in their business, compounding the growth of the company. Whilst their approach is focused on quality/growth orientated companies that display these characteristics over time, the Investment Manager will also choose shares of companies that display such characteristics on a temporary basis but are perceived to be good value.

The Investment Manager uses a screening process that ranks companies based on key financial metrics, that they believe are key for quality growth of companies, and then select the top ranked companies from a universe of over 1500 companies for potential inclusion in the Fund's portfolio. With the final decision on inclusion or exclusion of the qualifying quality/growth companies in the Fund's portfolio being driven by the valuation of each of the companies screened.

The Investment Manager also evaluates the weighting to each industry sector and geographic region to assess whether adjustments to the portfolio are required, based on their view of that area. Based on this view the Investment Manager may adjust the investments held to manage risk or to take advantage of market trends.

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

The Fund's investment policy puts it in the IA Global sector. You may want to assess the Fund's performance compared to the performance of this sector.

Income is not distributed but is rolled up (accumulated) into the value of your investment.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

### Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio are used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 6 because its investments have experienced high volatility in the past. The Fund's volatility is affected by various risks, including:

The Fund will be exposed to financial markets and market conditions can change rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

The Fund may be exposed to the shares of smaller companies which are typically riskier than larger, more established companies. Difficulty in trading may arise, resulting in a negative impact on your investment. Shares in smaller companies may be harder to sell at a desired price and/or in a timely manner, especially in difficult market conditions.

The Fund may be exposed to emerging markets, which are typically riskier than more established markets, as they can involve a higher than average risk due to the volatility of currency exchange rates, limited geographic focus, investment in a smaller number of issues, political and economic instability and less liquid markets. Difficulty in trading may arise, resulting in a negative impact on your investment.

The Fund may be exposed to bonds, the prices of which will be impacted by factors including; changes in interest rates, inflation expectations and perceived credit quality.

The Fund may have exposure to overseas markets, either directly or indirectly, and is therefore exposed to currency risk. As a result, the value of your investment can be affected by changes in exchange rates.

Bonds known as 'sub-investment grade' bonds generally produce a higher level of income, but carry greater risk that the issuer will not be able to pay the income or repay the capital at maturity.

In certain market conditions, the Fund may not be able to sell one or more of its assets for the full value, or at all. This could affect the performance of the Fund and could cause the Fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

A company that we deal with may renege on its obligations, costing the Fund money.

The Fund may enter into various financial contracts (known as derivatives) in an attempt to protect the value of the Fund's assets or to reduce the costs of investing, although this may not be achieved.

Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the Fund, or inconvenience to investors.

Investors are encouraged to read the 'risk factors' section of the Fund's prospectus to find a more extensive list of the risks that apply to this Fund.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

As this share class does not have 12 months accounting data the ongoing charges figure is based on estimated expenses. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.

### One-off charges taken before or after you invest

**Entry Charge** 0.00%

**Exit Charge** None

This is the maximum that might be taken out of your money before it is invested.

### Charges taken from the fund over each year

**Ongoing Charges** 0.54%

### Charges taken from the fund under certain conditions

**Performance Fee** None

## Past Performance

As the Fund has no performance data for one complete year, there is insufficient data to provide a useful indication of past performance.

This Fund was launched on 21 February 2025.

This share class was launched on 21 February 2025.

The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Invesco Asian Fund (UK) (the "Fund")

### A fund of Invesco Far Eastern Investment Series (the "Company")

### Z Accumulation share class (ISIN: GB00B8N44Q86) (the "Share Class")

The Fund is managed by Invesco Fund Managers Limited, part of the Invesco Group.

## Objectives and Investment Policy

- The objective of the Fund is to achieve long-term (5 years plus) capital growth.
- The Fund invests at least 80% of its assets in shares of companies incorporated, domiciled or carrying out the main part of their economic activity in Asia and Australasia, excluding Japan.
- The Fund may use derivatives (complex instruments) to manage the Fund more efficiently, with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Fund has an active investment approach based on stock selection driven by the fund manager's assessment of valuation. The Fund is not constrained by a benchmark and has a flexible approach with no inbuilt bias to country, sector or company size.
- The reference to (UK) in the Fund's name only relates to the Fund's domicile and is unrelated to the Fund's objective and investment policy.
- You can buy, sell and switch shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.
- Recommendation: The Fund may not be appropriate if you plan to withdraw your money within 5 years.

## Risk and Reward Profile

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

## Other Risks

- The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and you may not get back the full amount invested. Over time, inflation may erode the value of investments.
- The Fund invests in emerging and developing markets, where there is potential for a decrease in market liquidity, which may mean that it is not easy to buy or sell securities. There may also be difficulties in dealing and settlement, and custody problems could arise.
- The Fund may use Stock Connect to access China A Shares traded in mainland China. This may result in additional liquidity risk and operational risks including settlement and default risks, regulatory risk and system failure risk.
- The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of its investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.
- The Fund's performance may be adversely affected by variations in the relative strength of world currencies or if Sterling strengthens against those currencies.
- A more detailed description of risk factors that apply to this Fund is set out in Section 29 of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None

- The ongoing charge figure reflects the fund management fee, a fixed fee. The figure excludes indirect ongoing costs and portfolio transaction costs.
- For a full breakdown of the fund's charges please see the Costs and Charges document on our website: [www.invesco.com/uk/icvc-charges](http://www.invesco.com/uk/icvc-charges)
- In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These may have a material impact on your returns.

Past Performance

- Fund launch date: 10 February 1990.
- Share Class launch date: 12 November 2012.
- The base currency of the Fund is Sterling.
- Performance figures are calculated in Sterling.
- Performance figures are calculated inclusive of reinvested income and net of the ongoing charge and portfolio transaction costs.
- Past performance is not a guide to future returns.

Practical Information

- Depositary: Citibank UK Limited
- The UK tax regime may have an impact on your personal tax position.
- Invesco Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.
- The Company is structured by having different funds. The assets and liabilities of each fund are segregated by UK Law. As a consequence the assets of the Fund will not be available to meet the liabilities of another fund within the Company.
- You are entitled to switch from this Fund to another fund within the Invesco ICVC fund range on request.
- More share classes are available for this Fund. You can find more information on our website.
- You can check the latest price for this Share Class on our website.

iShares 100 UK Equity Index Fund (UK)

A sub-fund of BlackRock Collective Investment Funds

Class D Accumulating GBP

ISIN: GB00B7W4GQ69

Manager: BlackRock Fund Managers Limited

Objectives and Investment Policy

- ▶ The Fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund) by tracking closely the performance of the FTSE 100 Index, the Fund's benchmark index.
- ▶ The Fund invests in equity securities (e.g. shares) of companies that make up the benchmark index.
- ▶ The benchmark index measures the performance of equity securities of the largest 100 companies listed in the United Kingdom. The benchmark index is a free float-adjusted market capitalisation weighted index. Free float-adjusted means that only shares readily available in the market rather than all of a company's issued shares are used in calculating the benchmark index. Free float-adjusted market capitalisation is the share price of a company multiplied by the number of shares readily available in the market.
- ▶ The Fund is passively managed and the investment manager has limited discretion to select the Fund's investments and in doing so will take into consideration the benchmark index.
- ▶ The Fund intends to replicate the benchmark index by holding the equity securities, which make up the benchmark index, in similar proportions to the benchmark index.
- ▶ The Fund may also engage in short term secured lending of its investments to certain eligible third parties. This is used as a means of generating additional income and to off-set the costs of the Fund.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be accumulating units (i.e. dividend income will be included in their value).
- ▶ Your units will be denominated in Sterling, the Fund's base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is £100,000.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

\*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2024. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None*
This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.	
Charges taken from the Fund over each year	
Ongoing Charges	0.06%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2012. The unit class was launched in 2012.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†1FTSE 100 Index (GBP)

As of 31 December 2014, the Benchmark Index converted from a close of business valuation to a midday valuation. Historic performance of the Benchmark has been simulated by the Benchmark provider and such data is used for the purposes of demonstrating historic performance in the "Past Performance" table from 31 July 2009 or from the launch of the share class if later.

Practical Information

- ▶ The trustee and depositary of the Fund is The Bank of New York Mellon (International) Limited, which also acts as custodian.
- ▶ Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Collective Investment Funds (BCIF). These documents are available free of charge in English. These can be found, along with other information, such as unit prices, on the BlackRock website at [www.blackrock.com](http://www.blackrock.com), on the iShares website at [www.ishares.com](http://www.ishares.com) or by calling Investor Services on 0800 44 55 22.
- ▶ Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.
- ▶ The Fund is a sub-fund of BCIF, an umbrella structure comprising different sub-funds. This document is specific to the Fund and unit class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ BlackRock Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ The assets of the Fund are held on trust for its unitholders under English trust law which means that its assets cannot be used to discharge the liabilities of other sub-funds within BCIF. In addition, the Fund's assets are held separately from the assets of other sub-funds.
- ▶ Investors may switch their units in the Fund for units in another sub-fund within BCIF, subject to meeting certain conditions as set out in the prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at [www.blackrock.com/Remunerationpolicy](http://www.blackrock.com/Remunerationpolicy) or on request from the registered office of the Management Company.

## Janus Henderson

### European Smaller Companies Fund Class I Acc ISIN: GB0007476426

A sub-fund of Janus Henderson UK & Europe Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.

Fund Currency: GBP Share Class Currency: GBP

## Objective and investment policy

### Objective

The Fund aims to provide capital growth over the long term (5 years or more).

### Investment policy

The Fund invests at least 80% of its assets in shares (also known as equities) of smaller companies, in any industry, in Europe (excluding UK). Companies will be incorporated, headquartered, listed on an exchange in, or deriving significant revenue from, this region.

The Fund may also invest in other assets including cash.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed. The MSCI Europe ex UK Small Cap Index is broadly representative of the companies in which the Fund may invest and can provide a useful comparator for assessing the Fund's performance. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index.

As an additional means of assessing the performance of the Fund, the IA European Smaller Companies sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

### Strategy

The Investment Manager focuses on meetings and calls with company management, along with the use of quantitative filters, to identify potential

companies for investment. Emphasis is placed on the robustness of a company's business model, an analysis of what drives the business, its competitive advantages and the sustainability of returns. The Fund maintains a well-diversified portfolio of companies which generally fall within the bottom 25% of their relevant market by way of size. The liquidity of any stock (the degree to which shares can be quickly bought or sold in the market at a price reflecting its intrinsic value) is important in determining whether to invest and the size of the holding for the Fund.

**Distribution policy** The Fund offers accumulation shares (shares in which net income is retained within the price).

**Recommendation** This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

**For an explanation of some of the terms used in this document, please visit the glossary on our website at [www.janushenderson.com](http://www.janushenderson.com).**

## Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

**Equities** Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

**Smaller Companies** Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

**Country or Region** If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

**Derivatives** The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

**Exchange Rates** If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

**Liquidity** Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

**Counterparty Risk and Operational Risk** The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

### One-off charges taken before or after you invest\*

Entry Charge	0.00%
Exit Charge	0.00%**

\* The charges shown are maximum figures. In some cases you may pay less.

\*\* Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

## Past performance

### Charges taken from the Fund over a year

Ongoing Charges	0.89%
-----------------	-------

The ongoing charge figure is an estimate of the expected future charges. The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

\*Warning: From 25 February 2022, the Fund's benchmark changed from EMIX Smaller European Companies ex UK Index to MSCI Europe ex UK Small Cap Index. Past performance before 25 February 2022 is shown for the Fund's previous benchmark.

The past performance is calculated in GBP.

The Fund and the share class were launched in January 1985.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

The Fund does not aim to track the performance of the benchmark.

a Share Class of JPMorgan Fund ICVC – JPM Japan Fund. The Authorised Corporate Director ("ACD") is JPMorgan Funds Limited

### Objectives, Process and Policies

#### INVESTMENT OBJECTIVE

To provide capital growth over the long-term (5-10 years) by investing at least 80% of the Fund's assets in the shares of Japanese companies.

#### INVESTMENT PROCESS

##### Investment approach

- Uses a fundamental, bottom-up stock selection process.
- Uses a high conviction approach to finding the best investment ideas.
- Seeks to identify high quality companies with superior and sustainable growth potential.

##### Benchmark TOPIX (Net)

##### Benchmark uses and resemblance

- The Fund is actively managed. The Benchmark is a Performance Comparator and the Fund may bear little resemblance to its Benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund.

#### POLICIES

**Main investment exposure** At least 80% of assets invested in equities of companies that are domiciled, or carrying out the main part of their

economic activity, in Japan. The Fund may invest in small capitalisation companies.

**Other investment exposures** Cash and near cash on an ancillary basis.

**Derivatives** *Used for: efficient portfolio management; hedging. Types: see [Fund Derivative Usage](#) table under [How the Funds Use Derivatives, Instruments and Techniques](#) in the Prospectus. TRS including CFD: none. Global exposure calculation method: commitment.*

**Currencies** *Fund Base Currency: GBP. Currencies of asset denomination: JPY. Hedging approach: typically unhedged.*

This Share Class seeks to minimise the effect of exchange rate fluctuations between the Sub-Fund's Base Currency and the Share Class Currency.

**Redemption and Dealing** Shares of the Fund may be redeemed on demand, with dealing normally on a daily basis.

**Distribution Policy** This Share Class will reinvest income.

For an explanation of some of the terms used in this document, please visit the glossary on our website at <https://am.jpmorgan.com/gb/en/asset-management/per/funds/administrative-information/>.

### Risk and Reward Profile

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

**Why is this Share Class in this category?** This Share Class is classified in category 6 because its Net Asset Value has shown high fluctuations historically.

#### OTHER MATERIAL RISKS

The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective.

The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund.

Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

#### [Investment risks](#) Risks from the Fund's techniques and securities

For an explanation of some of the terms used in this document, please visit the glossary on our website at <https://am.jpmorgan.com/gb/en/asset-management/per/funds/administrative-information/>.

### Risk and Reward Profile

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

**Why is this Share Class in this category?** This Share Class is classified in category 5 because its Net Asset Value has shown medium to high fluctuations historically.

#### OTHER MATERIAL RISKS

The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective.

The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund.

Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Legal & General Global Technology Index Trust Unit Class I GBP Accumulation - ISIN: GB00B0CNH163

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited (the "Manager").

### OBJECTIVES AND INVESTMENT POLICY

- The objective of the Fund is to track the performance of the FTSE World -Technology Index, the "**Benchmark Index**" on a net total return basis before fees and expenses are applied. Fund performance may differ from the Benchmark Index due to the deduction of fees and expenses and the impact of any tracking error factors.
  - The Benchmark Index is comprised of shares in companies from the developed and advanced emerging markets that are engaged in information technology and are included in the Benchmark Index.
  - The Fund seeks to replicate the Benchmark Index and its investments will closely match those that make up the Benchmark Index.
  - The Fund will have at least 90% exposure (directly or through depositary receipts (a certificate issued by a bank representing shares in a foreign company such as American depositary receipts and global depositary receipts)) to assets that are included in the Benchmark Index.
  - The Fund may also invest in money market instruments (such as treasury bills), depositary receipts, cash, deposits, shares in companies which are reasonably expected to become part of the Benchmark Index in the near future or are an alternative to a constituent of the Benchmark Index and collective investment schemes, including those managed or operated by the Manager or an associate of the Manager.
  - The Fund may use derivatives (contracts which have a value linked to the price of another asset) to:
    - reduce risk or cost; or
    - generate additional capital or income with no, or an acceptably low, level of risk.
- Other information:**

  - The Fund is passively managed as it tracks the Benchmark Index.
  - Your units will be accumulation units. Income from the Fund's investments (dividends) will be reinvested back into the value of your units.
  - You can buy or sell units in this Fund on any business day. You need to contact us with your instruction before 3pm. This is the time we calculate unit prices for this Fund. If you contact us after 3pm, the units will be bought or sold at the next business day's price.
  - The Fund's base currency is denominated in GBP.
  - This Fund may be suitable for investors looking to track the shares in companies from developed and advanced emerging markets that are engaged in information Technology as represented by the Benchmark Index.
  - Although investors can take their money out at any time, this Fund may not be appropriate for those who plan to withdraw their money within five years.
  - This Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
  - If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.

### RISK AND REWARD PROFILE

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
  - The Fund is in category 6 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
  - Even a fund in the lowest category is not a risk free investment.
  - The value of your investment may fall as well as rise and is not guaranteed. You might get back less than you invest.
- Further information on the risks of investing in this fund is contained in the

- Prospectus available at [www.legalandgeneral.com/reports](http://www.legalandgeneral.com/reports).
- The risk and reward indicator may not take account of the following risks of investing in the Fund:
- The return from this Fund is dependent on relatively few individual investments. This means that a fall in the value of an individual investment can have a major impact on the overall performance of the Fund.
  - Most of the Fund holds investments from a particular market sector, that of information technology. Funds like this can be more volatile than funds that invest across many market sectors. This is because the value of the Fund can go up and down more often and by larger amounts than funds that are spread more widely, especially in the short-term.
  - The Fund may have underlying investments that are valued in currencies that are different from GBP. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
  - Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
  - The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.

## CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested.	
The price for buying and selling units is subject to a Dilution Adjustment See opposite.	
Charges taken from the fund over each year	
Ongoing charge	0.32%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- There are no entry or exit charges.
- The ongoing charges figure is based on the latest available expenses at December 2024. This figure may vary from year to year.
- This Fund's ongoing charges include any charges made by any other funds it may invest in. They exclude portfolio transaction costs.
- The ongoing charges are taken from the Income of the Fund.

**Other costs:**

- **Dilution adjustment:** On any day, the prices for buying or selling units in this Fund are the same. The Fund manager calculates a single price for this Fund based on the mid-point between the buying and selling prices of the Fund's assets. In certain circumstances, the Fund manager can adjust this price to account for whether there is more money going into or coming out of the Fund. This is called a 'dilution adjustment'.
- This can vary but as an example for this Fund we estimate 0.05% for purchases and 0.07% for sales at 31 December 2024. The amount of the dilution adjustment may differ in future.

For more information about charges and costs, please see the charges and expenses section in the Fund's Prospectus, or visit our website at [www.legalandgeneral.com/chargesandfees](http://www.legalandgeneral.com/chargesandfees).

## PAST PERFORMANCE

- Past performance is not a guide to future performance.
- The figures for the Fund take into account the ongoing charges and assume income (after any tax) is reinvested.
- The performance has been calculated in GBP.
- The Fund may not replicate the performance of the Benchmark Index perfectly due to tracking errors such as expenses, tax and transaction costs incurred by the Fund, which are not included in the Index.
- The annual return is for a 12 month period ending 31 December.
- The Fund launched in 2000.
- This unit class launched in 2005.

## PRACTICAL INFORMATION

- The trustee and depositary is Northern Trust Investor Services Limited.
- You can obtain further information about the Fund including copies of its prospectus and the latest annual and semi-annual reports at [www.legalandgeneral.com/reports](http://www.legalandgeneral.com/reports). Paper copies of these documents are also available free of charge in English from Legal & General Investments, PO Box 6080, Wolverhampton WV1 9RB.
- Investors can get other practical information, including the latest prices, dilution adjustment and details of any other unit classes that are available, by calling us on **0370 050 0955** Monday to Friday between 9:00a.m. to 5:00p.m. Call charges will vary.
- This Fund is subject to the tax legislation of the United Kingdom, which may have an impact on each investor's personal tax position.
- Legal & General (Unit Trust Managers) Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.
- Details of our Remuneration Policy including our Remuneration Committee and how remuneration and benefits are calculated can be accessed from [www.lgim.com/remuneration](http://www.lgim.com/remuneration). A paper copy is also available free of charge upon request.

## M&G Managed Growth Fund

a sub-fund of M&G Investment Funds (4)

Sterling Class I – Accumulation shares ISIN no. GB00B7K52D01

Managed by M&G Securities Limited

### Objective and investment policy

The fund aims to provide a combination of capital growth and income, net of the Ongoing Charge Figure, that is higher than the average return of the IA Flexible Investment Sector over any five-year period.

**Core investment:** At least 70% of the fund is invested in other funds to gain exposure to a mix of assets including company shares, bonds, convertibles and cash from anywhere in the world. The fund may also invest directly in these assets. In aggregate, a minimum of 70% of the fund is invested in company shares, directly or through other funds.

**Other investments:** The fund may invest in company shares and cash or assets that can be turned into cash quickly.

**Derivatives usage:** For investment purposes and to reduce risk and cost.

**Strategy in brief:** The fund manager's investment views are mainly implemented by investing in other funds. This is typically via M&G's own funds, but the fund may also invest in funds managed by other companies where appropriate in order to best reflect the fund manager's investment views. The fund has a flexible investment approach, with the freedom to respond to changes in economic conditions and the valuation of assets. The approach combines in-depth research to work out the value of assets over the medium to long term, with analysis of market reactions to events to identify investment opportunities. In particular, the fund manager seeks to respond when asset prices move away from a reasonable sense of "fair" long-term value due to the market's reaction to events.

**Benchmark:** IA Flexible Investment Sector

The benchmark is a target which the fund seeks to outperform. The sector has been chosen as the fund's benchmark as the fund is a constituent of the sector. The benchmark is used solely to measure the fund's performance and does not constrain the fund's portfolio construction.

The fund is actively managed. The fund manager has complete freedom in choosing which investments to buy, hold and sell in the fund.

For performance measurement purposes the benchmark is shown or hedged into the relevant share class currency.

**Additional information can be found on the M&G website, including:**

- a glossary providing an explanation of some terms used in this document.
- the Prospectus including the fund's objective and investment policy.

#### Other information

You can buy and sell shares in the fund on any business day. Instructions received before 12 noon will be dealt at that day's price.

Any income from the fund will be rolled up into the value of your investment.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These can be higher when investing outside Europe.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

■ The above risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 5 because its Net Asset Value has shown medium to high rises and falls in value historically.

■ The risk number shown is not guaranteed and may change over time.

■ The lowest risk number does not mean risk free.

**The main risks that could affect performance are set out below:**

■ The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.

■ The fund invests in other funds, which are subject to the risks associated with the type of assets held in those funds.

■ The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.

■ Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events can reduce the value of bonds held by the fund.

■ Investing in emerging markets involves a greater risk of loss due to greater political, tax, economic, foreign exchange, liquidity and regulatory risks, among other factors. There may be difficulties in buying, selling, safekeeping or valuing investments in such countries.

■ The fund may use derivatives to profit from an expected rise or fall in the value of an asset. Should the asset's value vary in an unexpected way, the fund will incur a loss. The fund's use of derivatives may be extensive and exceed the value of its assets (leverage). This has the effect of magnifying the size of losses and gains, resulting in greater fluctuations in the value of the fund.

■ Convertibles are subject to the risks associated with both bonds and company shares, and to risks specific to the asset class. Their value may change significantly depending on economic and interest rate conditions, the creditworthiness of the issuer and the performance of the underlying company shares. In addition, issuers of convertibles may fail to meet payment obligations and their credit ratings may be downgraded. Convertibles may also be harder to sell than the underlying company shares.

■ In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.

■ The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.

■ Operational risks arising from a failure or delay in operational processes and systems, or the failure of a third party provider may affect the value of your investments. Where this results in compensation needing to be paid, this may be paid some time after the original loss is experienced.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at [www.mandg.co.uk/literature](http://www.mandg.co.uk/literature)

## Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0.65%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 31 October 2024. This figure may change from year to year. It excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Annual Charge which may be discounted depending on the size of the fund. The Annual Charge without any discount is 0.65%. The fund's annual report for each financial year will include details on the exact charges made.

For more information on charges, please see the relevant sections of the Prospectus at [www.mandg.co.uk/literature](http://www.mandg.co.uk/literature)

## Past performance

### OBJECTIVES AND INVESTMENT POLICY

#### Objective

To increase the value of your investment while seeking to achieve a positive environmental impact.

#### Reference Index

MSCI AC World (USD), an index that does not take into account environmental, social and governance (ESG) factors. Used for risk monitoring, performance objective and performance measurement.

#### Portfolio Assets

The Fund invests at least two-thirds of its net assets in equities of companies that contribute to lowering carbon emissions by, for instance, favouring clean energy in their production process. The Fund may invest worldwide, including in emerging markets and Mainland China.

#### Derivatives And Structured Products

The Fund may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use structured products to gain exposure to portfolio assets.

#### Fund Currency

USD

#### Investment Process

In actively managing the Fund, the Investment Manager uses a combination of market and fundamental company analysis to select securities that it believes offer favourable growth prospects at a reasonable price. The Investment Manager considers ESG factors a core element of its strategy by seeking to invest mainly in economic activities that contribute to an environmental and social objective whilst avoiding activities that adversely affect society or the environment. Voting rights are methodically exercised and there may be engagement with companies to positively influence ESG practices. For further information, please refer to our exclusion framework in the Responsible Investment policy\*, SFDR product category Article 9. The portfolio composition is not constrained relative to the benchmark, so the similarity of the Fund's performance to that of the benchmark may vary.

#### Terms to understand

**Derivatives** Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

**Emerging markets** Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

**Equities** Securities that represent a share in the business results of a company.

**Structured products** Securities similar to derivatives, but with defined risk or performance characteristics.

#### Other characteristics

Designed for investors who understand the risks of this Fund and plan to invest for 5 year(s) or more. This is a distribution share class, meaning that it intends to pay income to the holder. Orders to buy, switch or redeem shares are ordinarily processed on any day that is a full bank business day in Luxembourg.

The Share Class is assigned to this risk category because of the price variations resulting from its currency and the nature of the Fund's investments and strategy. The risk category shown is based on historical data and may not be a reliable indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time. The lowest category does not mean a risk-free investment. The Fund offers no capital guarantee or asset protection measures.

The Fund may be exposed to the following risks which are not adequately captured by the synthetic risk indicator and may negatively impact its value:

- **Investments in Mainland China** may be subject to capital restrictions and trading quotas (e.g. QFII and RQFII regimes). The Fund may encounter difficulties or delays in enforcing its rights in the event of disputes.
- **Chinese "Stock Connect"** trading programmes may be subject to additional risks related to ownership rights, clearing & settlement, trading quotas and operational issues.
- **Counterparty risk:** losses occur when a counterparty does not honour its obligations related to contracts such as over-the-counter derivatives.
- **Investments in emerging markets** are generally more sensitive to risk events, such as changes in the economic, political, fiscal and legal environment, as well as fraud.
- **Financial Derivatives risk:** the leverage resulting from derivatives amplifies losses in certain market conditions.
- **Operational risk:** losses resulting from human errors, system failures, incorrect valuation and safekeeping of assets.
- **Sustainability risk:** ESG related risk events or conditions could cause a material negative impact on the value of the investment if they were to occur.

Further information can be found in the prospectus.

## CHARGES

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The **entry, conversion and exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your financial adviser or SICAV distributor.

The **ongoing charges** figure is based on expenses for the period ending on 31 December 2024. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment undertaking.

For more information on charges, please refer to the "Funds fees and costs" section of the SICAV's prospectus available on [pictet.com/assetmanagement](https://pictet.com/assetmanagement)

### One-off charges deducted before or after you invest

Entry charge (in favour of the distributor)	Up to 5.00%
Exit charge (in favour of the distributor)	Up to 1.00%
Conversion charge (in favour of the distributor)	Up to 2.00%

This is the maximum figure that might be taken out of your capital before it is invested and before the proceeds of your investment are paid out.

## WHAT IS THIS PRODUCT?

### Type

Pictet - Clean Energy Transition is a Fund of an open-ended investment company with variable capital ("SICAV") with segregated liability between Funds and is authorised as an Undertaking for Collective Investment Transferable Securities ("UCITS") in Luxembourg.

### Term

This product has no maturity date. The Fund is formed for an indefinite period. However, the Board of Directors may in certain cases decide to close the Fund or at any time propose to close the Fund at an extraordinary general Shareholders' meeting. Dividend distribution policy: Distributed. You may redeem your investment upon demand. Dealing frequency: Daily.

### Objectives

To increase the value of your investment while seeking to achieve a positive environmental impact.

### Reference Index

MSCI AC World (USD), an index that does not take into account environmental, social and governance (ESG) factors. Used for risk monitoring, performance objective and performance measurement.

### Portfolio Assets

The Fund invests at least two-thirds of its net assets in equities of companies that contribute to lowering carbon emissions by, for instance, favouring clean energy in their production process. The Fund may invest worldwide, including in emerging markets and Mainland China.

### Derivatives and Structured Products

The Fund may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use structured products to gain exposure to portfolio assets.

### Fund Currency

USD

### Investment Process

In actively managing the Fund, the Investment Manager uses a combination of market and fundamental company analysis to select securities that it believes offer favourable growth prospects at a reasonable price. The Investment Manager considers ESG factors a core element of its strategy by seeking to invest mainly in economic activities that contribute to an environmental and social objective whilst avoiding activities that adversely affect society or the environment. Voting rights are methodically exercised and there may be engagement with companies to positively influence ESG practices. For further information, please refer to our exclusion framework in the Responsible Investment policy\*, SFDR product category Article 9. The portfolio composition is not constrained relative to the benchmark, so the similarity of the Fund's performance to that of the benchmark may vary.

### Intended retail investor

Suitable for investors with all levels of knowledge and/or experience, seeking capital growth, and who have a 5 years or more investment horizon. The product does not have any capital guarantee and up to 100% of their capital is at risk.

### Depository Bank

Bank Pictet & Cie (Europe) AG, Succursale de Luxembourg, 15A, Avenue J.F. Kennedy, L-1855 Luxembourg.

### Further Information

Under certain conditions, Shareholders may switch (convert) most of the Shares of any SICAV or Share Class into any other SICAV or Share Class. Please refer to the prospectus for detailed information.

The SICAV's prospectus, the most recent annual or semi-annual reports, the current price and other information on the SICAV are available upon request, free of charge, from the SICAV's registered office, 15, avenue J.F. Kennedy, L-1855 Luxembourg, or online at [pictet.com/assetmanagement](https://pictet.com/assetmanagement).

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Risk Indicator

The risk indicator assumes you keep the product for 5 year(s).

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

**Be aware of currency risk.** Your local currency may be different from the currency of the product. You may receive payments in a currency that is not your local currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product may be exposed to further risks that are not included in the Summary Risk Indicator. Further information can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

### Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years.**

**Markets could develop very differently in the future.**

Recommended holding period: 5 years

Example Investment: GBP 10,000

Scenarios		IF YOU EXIT AFTER 1 YEAR	IF YOU EXIT AFTER 5 YEARS
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	GBP 2,750	GBP 1,910
	Average return each year	-72.50%	-28.19%
Unfavourable	What you might get back after costs	GBP 7,820	GBP 9,610
	Average return each year	-21.80%	-0.79%
Moderate	What you might get back after costs	GBP 10,410	GBP 17,420
	Average return each year	4.10%	11.74%
Favourable	What you might get back after costs	GBP 15,920	GBP 24,060
	Average return each year	59.20%	19.20%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 2021 and 2024.

Moderate scenario: This type of scenario occurred for an investment between 2019 and 2024.

Favourable scenario: This type of scenario occurred for an investment between 2016 and 2021.

### WHAT HAPPENS IF PICTET ASSET MANAGEMENT (EUROPE) S.A. IS UNABLE TO PAY OUT?

Pictet Asset Management (Europe) S.A. is a société anonyme. The SICAV is also a société anonyme and its assets are segregated from those of the Management Company. The SICAV has entrusted the Depositary Bank with the safekeeping of its assets, which are kept separated from the Depositary Bank's assets. A default of Pictet Asset Management (Europe) S.A. will therefore have no impact on the value of your investment in the product. However, you may benefit from a consumer protection scheme.

### WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- GBP 10,000 is invested.

	IF YOU EXIT AFTER 1 YEAR	IF YOU EXIT AFTER 5 YEARS
Total costs	GBP 717	GBP 2,067
Annual cost impact (*)	7.2%	2.5% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.2% before costs and 11.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures do not include any distribution fees, however the person selling you the product may charge you and they will inform you of the actual distribution fee.

### Composition of Costs

ONE-OFF COSTS UPON ENTRY OR EXIT		IF YOU EXIT AFTER 1 YEAR
Entry costs	Pictet Asset Management (Europe) S.A. do not charge an entry fee, however the person selling you the product may charge you up to a maximum of 5.00%.	Up to GBP 500
Exit costs	Pictet Asset Management (Europe) S.A. do not charge an exit fee for this product, but the person selling you the product may charge you no more than 1.00%.	Up to GBP 101
ONGOING COSTS TAKEN EACH YEAR		
Management fees and other administrative or operating costs	1.10% taken from this Share Class over a year. This is an estimate based on actual costs over the last year.	GBP 110
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 6
INCIDENTAL COSTS TAKEN UNDER SPECIFIC CONDITIONS		
Performance fees and/or Carried interests	There is no performance fee for this product. There is no carried interest.	GBP 0

### HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years.

We have selected this Recommended holding period considering the volatility of the asset class. You can disinvest according to SICAV prospectus without penalty. Refer to the "What are the costs?" section for the impact of the costs on your investment return when you exit.

### HOW CAN I COMPLAIN?

Any complaint regarding the conduct of the persons advising on, or selling, the product can be submitted directly to these persons or their supervisors. Any complaint regarding the product or the conduct of the manufacturer of this product can be addressed in writing to the following address: Pictet Asset Management (Europe) S.A., 6B, rue du Fort Niedergruenewald, L-2226 Luxembourg, or by email to: [PAM\\_Complaint@pictet.com](mailto:PAM_Complaint@pictet.com) or by following the complaint resolution procedure available in the "Legal documents and resources" section at the bottom of the page of the following website: [pictet.com/assetmanagement](http://pictet.com/assetmanagement).

## Royal London Short-Term Money Market Fund (Accumulation - Class Y Shares)

A sub-fund of Royal London Bond Funds ICVC ISIN: GB00B8XYYQ86

Managed by Royal London Unit Trust Managers Limited

### Objectives and investment policy

**Objective** The Fund's investment objective is to preserve capital and provide an income over rolling 12-month periods by predominantly investing (at least 80% of its assets) in cash and cash equivalents.

**Policy** The Fund is actively managed, meaning that the manager will use their expertise to select investments to meet the objective.

At least 80% of the Fund will be invested in eligible instruments as permitted by the Money Market Funds Regulation. These will include cash, time deposits, certificates of deposit, commercial paper, floating-rate notes, and short-dated government bonds.

The Fund may also make use of reverse repurchase agreements. The Fund may also hold a small amount of the portfolio in derivatives (investments that derive their value from another closely related underlying investment) for the purposes of efficient portfolio management.

Money market instruments will have a minimum rating of A-1, P-1 or F1 or long-term equivalent. Held assets will have 397 days or less to maturity. The weighted average maturity of the Fund will not exceed 60 days and the weighted average life will not exceed 120 days.

The Fund's holdings are also subject to predefined ethical criteria, which are reviewed on a quarterly basis. The Fund will not invest in the bonds or other securities of companies or other organisations that generate more than 10% of their turnover from either one or a combination of the following:

- 1) Armaments – The manufacture of armaments, nuclear weapons or associated strategic products
  - 2) Tobacco – The growing, processing or selling of tobacco products
  - 3) Fossil Fuels – the exploration, extraction and refining of oil, gas or coal
- The Fund's comparator benchmark is the Bank of England Sterling Overnight Interbank Average (SONIA). For the most appropriate comparison, this should be considered on a 'before the deduction of fees' basis. SONIA is the average overnight interest rate UK banks pay for unsecured transactions in sterling. It is considered to be an appropriate benchmark as it is a widely recognised approach to benchmarking short-term money market and fixed income funds.

**Recommendation** Investors who seek current income, protection of capital (but not guaranteed) or a short-term investment option, less than 12 months.

### Concepts to understand

**Money market instruments** Money-market instruments are short-term, liquid investments issued by public institutions or companies.

**Rolling 12 month Period** A rolling 12 month period is any period of twelve months, no matter which day you start on.

**Reverse repurchase agreements** Agreeing to sell a purchased security at a specified later date.

**Efficient Portfolio Management** A list of approved investment techniques, including the use of derivatives, used to protect against excessive risk, reduce cost or generate extra income or growth.

**Ratings** Credit-rating agencies rate bonds based on the likelihood of them defaulting and being unable to repay their debt.

*You can buy and sell your shares on each working day, except public holidays, at 12:00 noon if you tell us before 12:00 noon that you want to do so. Instructions received after 12:00 noon will be processed at 12:00 noon on the following working day.*

Other share classes may be available as described in the Prospectus. If this is an income share class, any income will be paid out to you. If this is an accumulation share class, any income will be reinvested in the Fund.

### Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

Typically lower rewards

Typically higher rewards

The fund is shown in risk category 1 because its share price has shown a very low level of volatility historically.. The indicator has been calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. As an investment, money market instruments are typically less volatile than bonds and shares.

The risk and reward indicator is not a measure of the expected rise or fall in capital but shows how sharply the Fund's share price has gone up and down historically.

A fund whose share price has experienced sharp or large increases or decreases will sit in a higher risk category, whereas a fund whose share price has experienced small or gradual increases or decreases will sit in a lower risk category.

The indicator is calculated using a standard methodology derived from EU rules.

The risk/reward indicator is an estimate and not a guarantee. Going forward, the Fund's actual volatility could be higher or lower, and its rated risk/reward profile could change. The lowest risk category does not mean the investment is risk free.

The risk indicator does not adequately capture the following risks, which are materially relevant to the Fund:

**Investment Risk** The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may not get back the amount invested.

**Credit Risk** Should the issuer of a fixed income security become unable to make income or capital payments, or their rating is downgraded, the value of that investment will fall. Fixed income securities that have a lower credit rating can pay a higher level of income and have an increased risk of default.

**EPM Techniques** The Fund may engage in EPM techniques including holdings of derivative instruments. Whilst intended to reduce risk, the use of these instruments may expose the Fund to increased price volatility.

**Interest Rate Risk** Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.

**Counterparty Risk** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

**Inflation Risk** Where the income yield is lower than the rate of inflation, the real value of your investment will reduce over time.

**Money Market Fund Risks** A Money Market Fund is not a guaranteed investment, and is different from an investment in deposits. The principal invested in the Fund is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. The Fund does not rely on external support for guaranteeing the liquidity of the Fund or stabilising the NAV per share.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
Charges taken from the fund over a year:	
Ongoing charge	0.10%
Charges taken from the fund under specific conditions:	
Performance fee	None

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. Ongoing charge is based on the Fund Management Fee (FMF), which is the periodic fee paid to the ACD to cover the expenses of the Fund. This figure does not include portfolio transaction costs. Ongoing charges are the same for all investors in the share class.

Past performance

The graph shows fund performance over the past 10 years where available. The figure for a given year shows how much the Fund increased or decreased in value during that year. These results reflect ongoing charges taken from the Fund, but do not reflect any entry charges you might have to pay. The Fund was launched on 22 July 1999 as a unit trust and converted to an open-ended investment company (OEIC) on 30 April 2010. The share class was launched on 26 November 2012.

Past performance is not a guide to future performance and may not be repeated. The chart shows performance in British Pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance. The past performance is calculated in British Pounds, with net dividends reinvested.

Schroder Strategic Bond Fund

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Accumulation GBP (GB00B7FPS593)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

<b>Objectives</b> The fund aims to provide income and capital growth of between 2.5% and 4.5% per annum (after fees have been deducted) over a 3 to 5 year period by investing in bonds issued by governments, government agencies, supranationals and companies worldwide. This cannot be guaranteed and your capital is at risk. <b>Investment policy</b> The fund is actively managed and invests at least 80% of its assets in fixed and floating rate securities denominated in sterling (or in other currencies and hedged back into sterling) issued by governments, government agencies, supra-national and corporate issuers worldwide. The fund may invest up to 40% of its assets in asset backed securities and mortgage backed securities. The fund may invest up to 15% of its assets in contingent convertible securities. The fund may invest up to 50% of its assets in below investment grade securities as measured by Standard & Poor's or an equivalent credit rating agency, or in unrated securities.	 The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash. The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently(for more information please refer to section 6 of Appendix I of the Prospectus). <b>Benchmark</b> The fund's performance should be assessed against the income and capital growth target of between 2.5% and 4.5%, and compared against the Bloomberg Multiverse ex treasuries A+-B- GBP hedged and the Investment Association Strategic Bond sector average. <b>Dealing frequency</b> You may redeem your investment upon demand. This fund deals daily. <b>Distribution policy</b> This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.
--	---

Risk and reward profile

The risk and reward indicator

The risk category is based upon the fund's risk target and there is no guarantee that the fund will achieve it.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

**Risk factors**

**ABS and MBS risk:** The fund may invest in mortgage or asset-backed securities. The underlying borrowers of these securities may not be able to pay back the full amount that they owe, which may result in losses to the fund.

**Contingent convertible bonds:** The fund may invest in contingent convertible bonds which are bonds that convert to shares if the bond issuer's financial health deteriorates. A reduction in the financial strength of the issuer may result in losses to the fund.

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**Counterparty risk:** The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that

they owe to the fund may be lost in part or in whole.

**Credit risk:** If a borrower of debt provided by the fund or a bond issuer experiences a decline in financial health, their ability to make payments of interest and principal may be affected, which may cause a decline in the value of the fund.

**Currency risk:** If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

**Derivatives risk:** Derivatives, which are financial instruments deriving their value from an underlying asset, may be used for investment purposes and/ or to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

**High yield bond risk:** High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk meaning greater uncertainty of returns.

**Interest rate risk:** The fund may lose value as a direct result of interest rate changes.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

**Operational risk:** Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

## Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.65%
Charges taken from the fund under certain specific conditions	
Performance fee	
None	

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2024 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.65%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

## Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 27/03/2012.

The shareclass was launched on 27/03/2012.

Please note that the fund's investment policy and benchmark were changed on 18 September 2023. The past performance in the above table is based on the fund's investment policy and benchmark (comparator benchmark: Investment Association Strategic Bond sector average) in place prior to this date. Going forward, this table will show past performance from this date based on the new investment policy and benchmarks (comparator benchmark: Bloomberg Multiverse ex treasuries A+-B- GBP hedged) (comparator benchmark: Investment Association Strategic Bond sector average).

**Tax Legislation:** The fund is subject to UK tax legislation which may have an impact on your personal tax position.

**Liability:** Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or

inconsistent with the relevant parts of the fund's prospectus.

**Switches:** Subject to conditions, you may apply to switch your investment into another unit class within this fund or in another Schroder fund. Please see the prospectus for more details.

**Glossary:** You can find an explanation of some of the terms used in this document at [www.schroders.com/ukinvestor/glossary](http://www.schroders.com/ukinvestor/glossary).

**Benchmark:**The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmark has been selected because the investment manager believes that this benchmark is a suitable comparison for performance purposes given the fund's investment objective.

# KEY INFORMATION DOCUMENT

## Purpose:

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Document valid from: 19/04/2024

## Titan Hybrid Capital Bond Fund (the "Fund"), Class A GBP Accumulation, ISIN: IE00BZ6VKP67

### Product

The Fund, a sub-fund of Tideway UCITS Funds ICAV (the "ICAV"), is authorised and supervised by the Central Bank of Ireland ("CBI") in Ireland and manufactured by Waystone Management Company (IE) Limited (the "Manager"). The Manager is authorised in Ireland and regulated by the CBI and the CBI is responsible for supervising the Manager in relation to this Key Information Document.

For more information on this product, please refer to <https://www.titaninvestmentsolutions.com/> or call +44 20 3031 6008.

### What is this product?

**Type:** The Fund is domiciled in Ireland and is an open-ended investment company and qualifies as an undertaking for collective investment in transferable securities ("UCITS").

**Intended Retail Investor:** The Fund is suitable for investors with a medium to long term holding period and who have a moderate to high risk appetite with an initial subscription of £1,000.

**Term:** The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Prospectus, the Fund may be unilaterally terminated following written notice to investors subject to compliance with the Prospectus and applicable regulation. Subject to the liquidation, dissolution and termination rights of the Board of the ICAV as set forth in the Prospectus, the Fund cannot be automatically terminated.

### Objectives:

The Fund aims to generate 5% per annum income, net of all expenses, from a hybrid capital portfolio with medium volatility. (As described under the heading Investment Policy below).

The Fund is actively managed and will invest in debt securities which are listed or traded on Recognised Exchanges worldwide. The investments of the Fund represent a hybrid capital portfolio. Hybrid capital is defined as a debt instrument ranking below ordinary senior debt but above common equity. The core focus of the Fund is to invest in subordinated debt issued by large, household name companies. There is no geographical, industry or sectoral focus to the Fund and there is no restriction on the duration of the Fund. The Fund may invest in Contingent Convertible Securities (CoCo's) up to 30% of Fund's overall exposure. A CoCo is a debt security that is intended to either convert into equity or have its principal written down upon the occurrence of certain triggers.

The Fund may invest up to 100% in debt securities which are classified as high yield/sub-investment grade with a credit rating at best of BB+/Ba1 or below.

The Fund may invest up to 30% in debt securities issued by a sub-investment grade company i.e the issuer is sub-investment grade, with a credit rating at best of BB+/Ba1 or below.

The Fund may hold up to 25% in sub-investment grade debt securities which have a credit rating of B+/B1 or below where this credit rating has arisen as a result of a credit rating downgrade from a higher credit rating.

The Fund may not purchase sub-investment grade securities which have a credit rating of B+/B1 or below. The Fund may also invest up to 30% of its Net Asset Value in ordinary preference shares which are a hybrid form of equity with payments and capital repayment ranking senior to common equity dividends. Depending on the market conditions, the Fund may at any time at the Investment Manager's discretion take a defensive investment strategy and move up to 50% of the portfolio (i.e. up to 50% of its net asset value) to cash or cash equivalents. The Fund may utilise derivatives (i.e. foreign exchange forwards) for currency hedging purposes. Derivatives will not be used for investment purposes. The Manager will ensure that the use of derivatives does not materially alter the overall risk profile of the Fund.

The Fund is not managed in reference to a benchmark.

There is no geographical, industry or sectoral focus to the Fund and there is no restriction on the duration of the Fund.

There will be no short positions in the Fund.

This share class is an accumulating share class and, therefore, it is not currently intended to distribute dividends to the Shareholders.

You can buy and sell shares in the Fund on any day, except Saturday or Sunday, when banks in Dublin and London are open for normal business.

The depositary is The Bank of New York Mellon SA/NV, Dublin Branch. ("the Depositary").

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less than your original investment. In addition to the market price risk, please refer to the Prospectus for further information.

If the Fund currency differs from your investment currency, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level. Poor market conditions could impact your returns.

The value of your investment may fall and you may not get back the amount you invested.

Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer to the ICAV's Prospectus for further details.

### Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The figures shown include all the costs of the product itself, but do not take into account your personal tax situation and may not include all the costs that you pay to your advisor or distributor, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable, moderate, and favourable scenarios shown are illustrations of what you might get back using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Investment: GBP 10,000 (Recommended holding period: 5 years)			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum:	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress Scenario	What you might get back after costs	4,080 GBP	4,570 GBP
	Average return each year	- 59.25 %	- 14.5 %
Unfavourable Scenario	What you might get back after costs	7,900 GBP	9,710 GBP
	Average return each year	- 20.97%	- 0.58%
Moderate Scenario	What you might get back after costs	10,440 GBP	13,610 GBP
	Average return each year	4.45%	6.35%
Favourable Scenario	What you might get back after costs	11,960 GBP	15,520 GBP
	Average return each year	19.61%	9.19%

Unfavourable: This type of scenario occurred for an investment between 09/2021 and 03/2024.

Moderate: This type of scenario occurred for an investment between 02/2017 and 01/2022.

Favourable: This type of scenario occurred for an investment between 02/2016 and 01/2021.

### What happens if the Manager is unable to pay out?

The Manager is responsible for administration and management of the ICAV and does not typically hold assets of the Fund (assets that can be held by depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager and the Investment Manager have no obligation to pay out since the Fund's design does not contemplate any such payment being made. However, investors may suffer loss if the ICAV or the depositary is unable to pay out. There is no public or private investor compensation scheme that can compensate for any losses due to the insolvency of the ICAV, the Manager and the Investment Manager.

## What are the costs?

### Costs over Time

The person selling you or advising you about the Fund may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the Fund performs as shown in the moderate scenario.
- GBP 10,000 is invested.

Investment: GBP 10,000		
	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	126 GBP	878 GBP
Annual Cost Impact (*)	1.26 %	1.34 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.69% before costs and 6.35% after costs.

### Composition of Costs

If you exit after 1 year			
One-off costs upon entry or exit	Entry costs	The impact of the costs you pay when entering your investment. We do not charge an entry fee for this investment, but the person selling you the product may do so.	N/A
	Exit costs	The impact of the costs you pay when exiting your investment. We do not charge an exit fee for this investment, but the person selling you the product may do so.	N/A
Ongoing costs	Management fees and other administrative or operating costs	0.75% are incurred each year in managing your investments including those incurred by any underlying investments.	76 GBP
	Transaction costs	0.50% is the impact of the costs incurred when we are buying and selling underlying investments for the product.	50 GBP
Incidental costs taken under specific conditions	Performance fees	There is no performance fee for this product.	N/A

### How long should I hold it and can I take my money out early?

The recommended holding period is 5 years for investments made into this Fund. If you sell your shares before the end of the recommended holding period you may increase the risk of receiving back less than you invested.

Recommended holding period: 5 years

### How can I complain?

Complaints may be referred to the Complaints Department, Waystone Management Company (IE) Limited, 35 Shelbourne Road, Ballsbridge, Dublin, D04 A4E0, Ireland or by email to [complianceeurope@waystone.com](mailto:complianceeurope@waystone.com).

Once we have considered your complaint, you may have the right to refer the matter to the Central Bank of Ireland ("CBI"). Should you wish to refer a complaint or contact the CBI, you may do so at: Central Bank of Ireland, New Wapping Street, North Wall Quay, Dublin 1, D01 F7X3, Ireland or by telephone to +353 1 224 6000.

### Other relevant information

Alongside this document, please read the Prospectus. Copies of the Prospectus, the latest annual and semi-annual reports, as well as the latest published prices of the shares in the Fund and other information, including how to buy and sell shares are available from the Administrator or the website below.

You may switch your shares to the shares of another sub-fund of the ICAV. Please refer to the Prospectus for full details.

The Fund is one of a number of sub-funds. The assets and liabilities of each sub-fund are segregated by law from each other and the rights of investors and creditors in relation to any sub-fund should normally be limited to the assets of that sub-fund. However, the ICAV is a single legal entity and may operate in jurisdictions that may not recognise such segregation.

The above information and details of the past performance of the Fund and the previous performance scenario calculations can be found on the website <https://www.titaninvestmentsolutions.com/>. The past performance chart shows the share class's performance as the percentage loss or gain per year over the last 7 years.

## UBS S&P 500 Index Fund, class C Acc (ISIN: GB00BMN91T34), UBS Investment Funds ICVC

This Fund is managed by UBS Asset Management Funds Ltd, a subsidiary of UBS AG

### Objectives and investment policy

The UBS S&P 500 Index Fund (the "Fund") seeks to track the return of the S&P 500 Index (the "Index") before the deduction of charges. The Fund employs a passive investment strategy, investing all, or substantially all, of its assets in the shares of companies that make up the Index. To the extent that the Fund is not fully invested in the equities of the Index, it may be invested in shares of companies which in the Manager's opinion are reasonably expected to become part of the Index. The Index is comprised of 500 leading companies in leading industries of the U.S economy.

Other information:

1) The Fund may also invest in other financial instruments, including warrants, money market instruments, deposits, cash and near cash and other funds, which may be managed by UBS.

2) The Fund aims to have an anticipated tracking error of up to 0.5% per annum. The anticipated tracking error is a target and is not guaranteed.

3) The Fund may use derivatives (financial instruments whose value is linked to an underlying asset or index) for the purposes of efficient portfolio management.

Investors can buy or sell shares every UK working day except when NYSE or NASDAQ are closed.

The income in respect of an accumulation share class is not distributed but is retained in the Fund and reflected in the share price.

The Fund is denominated in GBP (Sterling). As such, investors may be exposed to changes in the exchange rate between the underlying

currency of the Fund's assets and GBP which may have a negative or positive impact on the returns. Important information: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years of investment.

The return of the fund depends primarily on equity market development and dividend payments.

Other information:

The income in respect of an accumulation share class is not distributed but is retained in the Fund and reflected in the share price.

### Risk and reward profile

#### More about this rating

- The risk category is based on return volatility of the Fund over the last five years or, where the fund has existed for less than five years, a combination of the return volatility of the fund and a model portfolio. The method used for this estimation depends on the type of fund.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.
- The lowest category does not mean 'risk free'.

#### Why is this fund in Category 6?

The fund is in category 6 because the volatility of past returns of the Index has been very high.

**No capital guarantee for this Fund exists so investors could lose the whole of their investment. A more detailed list of the risks can be found in the "Risk Factors" section of the prospectus.**

#### The risk indicator may not fully take into account the following risks.

- Equity risk: Equities (also known as shares) can lose value rapidly and typically involve higher risks than bonds.
- Counterparty risk: counterparties on trades may default or not comply with contractual obligations resulting in loss.
- Exchange rate risk: the value of investments may be impacted by changes in the exchange rates of currencies.
- Derivatives risk: derivatives can be highly sensitive to changes in the value of the asset on which they are based which can increase the size of losses and gains.
- Liquidity risk: securities may become more difficult to sell or sell at a desired price during difficult market conditions.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.09%
Charges taken from the fund under certain specific conditions	
Performance fee	none

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the last twelve months ended to the date of this KIID. This figure may vary from year to year. It generally excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking

For more information, please see the charges section of the Fund's prospectus, which is available at [www.ubs.com/funds](http://www.ubs.com/funds).

## Past performance

### Past performance is not a guide to future performance

Performance is based on NAV prices with income reinvested net of basic rate tax. Figures show discrete annual performance on a calendar year basis, to the most recent year end. For details on Fund charges, please refer to the Charges section above. In general, any past performance takes account of all ongoing charges but not the entry charge.

The class was launched in 2014.

The past performance of this Fund is calculated in GBP.

### Vanguard FTSE U.K. All Share Index Unit Trust (the "Fund")

GBP Acc

ISIN: GB00B3X7QG63

Manager: Vanguard Investments UK, Limited ("VIUK")

## Objectives and investment policy

- The Fund seeks to track the performance of the FTSE All-Share Index (the "Index").
- The Index is a free-float market-capitalisation weighted index representing the performance of all eligible companies listed on the London Stock Exchange's main market, which pass screening for size and liquidity. Free-float means that only shares readily available in the market are included when calculating a company's weight in a given index and excludes locked-in shares (such as those held by governments). Market-capitalisation is the value of a company's outstanding shares in the market and shows the size of a company.
- The Fund is a passive fund which means it takes the form of tracking a specific index in order to replicate its performance.
- The Fund attempts to:
  1. Track the performance of the Index by investing in all component shares of the Index in the same proportion as the Index. Where not practicable to fully replicate, the Fund will use a sampling process.
  2. Remain fully invested and hold small amounts of cash except in extraordinary market, political or similar conditions where the Fund may temporarily depart from this investment policy to avoid losses.
- The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth (known as "efficient portfolio management"). A derivative is a financial contract whose value is based

on the value of a financial asset (such as a share, bond, or currency) or a market index.

- The currency of the unit class is GBP.
- The Fund invests in securities which are denominated in currencies other than the share class currency. Movements in currency exchange rates can affect the return of investments.
- The Fund is appropriate for long-term investment. You should have an investment horizon of at least 5 years.
- Income from the Fund will be reinvested and reflected in the price of units in the Fund.
- Portfolio transaction costs will have an impact on performance.
- Units in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in Appendix 1 of the Prospectus). A list of the days on which units in the Fund cannot be bought or sold is available on: <https://fund-docs.vanguard.com/Vanguard-FTSE-U.K.All-Share-Index-UT.pdf>

**For further information about the objectives and investment policy of the Fund and Vanguard's relationship with the Index provider, please see Appendix 1 and the "Disclaimer" section of the Vanguard FTSE U.K. All Share Index Unit Trust prospectus (the "Prospectus") on our website at <https://global.vanguard.com/>**

## Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean "risk free".
- The Fund is rated 6 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
  - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.

**The risk and reward indicator does not take account of the following risks of investing in the Fund:**

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily. This could cause the Fund to incur higher costs when buying or selling investments or could mean that the Fund is not able to buy or sell investments when it would like to do so.
- Index tracking risk. The Fund is not expected to track the performance of the Index at all times with perfect accuracy. The Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of the Index.
- Index sampling risk. As the Fund uses an index sampling technique whereby a representative sample of securities are selected to represent the Index, there is the risk that the securities selected for the Fund may not, in the aggregate, approximate the full Index.
- Use of derivatives. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value.

**For further information on risks please see the "Risk Factors and Performance" section of the Prospectus on our website at <https://global.vanguard.com>**

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less than your original investment. In addition to the market price risk, please refer to the Prospectus for further information.

If the Fund currency differs from your investment currency, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level. Poor market conditions could impact your returns.

The value of your investment may fall and you may not get back the amount you invested.

Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk. Please refer to the ICAV's Prospectus for further detail

### Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The figures shown include all the costs of the product itself, but do not take into account your personal tax situation and may not include all the costs that you pay to your advisor or distributor, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable, moderate, and favourable scenarios shown are illustrations of what you might get back using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Investment: GBP 10,000 (Recommended holding period: 5 years)			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum:	There is no minimum guaranteed return. You could lose some or all of your investment.

	Average return each year	11.02%	4.5%

Unfavourable: This type of scenario occurred for an investment between 08/2021 and 02/2024.

Moderate: This type of scenario occurred for an investment between 05/2015 and 04/2020.

Favourable: This type of scenario occurred for an investment between 01/2016 and 12/2020.

### What happens if the Manager is unable to pay out?

The Manager is responsible for administration and management of the ICAV and does not typically hold assets of the Fund (assets that can be held by depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager and the Investment Manager have no obligation to pay out since the Fund's design does not contemplate any such payment being made. However, investors may suffer loss if the ICAV or the depositary is unable to pay out. There is no public or private investor compensation scheme that can compensate for any losses due to the insolvency of the ICAV, the Manager and the Investment Manager.

## What are the costs?

### Costs over Time

The person selling you or advising you about the Fund may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the Fund performs as shown in the moderate scenario.
- GBP 10,000 is invested.

Investment: GBP 10,000		
	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	49 GBP	285 GBP
Annual Cost Impact (*)	0.49 %	0.51 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.21% before costs and 2.70% after costs.

### Composition of Costs

If you exit after 1 year			
One-off costs upon entry or exit	Entry costs	The impact of the costs you pay when entering your investment. We do not charge an entry fee for this investment, but the person selling you the product may do so.	N/A

## Titan Short Duration IG Income Fund (the "Fund"), Class A GBP Accumulation Shares, ISIN: IE000DWW9114

### Product

The Fund, a sub-fund of Tideway UCITS Funds ICAV (the "ICAV"), is authorised and supervised by the Central Bank of Ireland ("CBI") in Ireland and manufactured by Waystone Management Company (IE) Limited (the "Manager"). The Manager is authorised in Ireland and regulated by the CBI and the CBI is responsible for supervising the Manager in relation to this Key Information Document.

For more information on this product, please refer to or call +44 20 3031 6008.

### What is this product?

**Type:** The Fund is domiciled in Ireland and is an open-ended investment company and qualifies as an undertaking for collective investment in transferable securities ("UCITS").

**Intended Retail Investor:** The Fund is suitable for investors with a medium holding period and who have a low risk appetite.

**Term:** The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Prospectus, the Fund may be unilaterally terminated following written notice to investors subject to compliance with the Prospectus and applicable regulation. Subject to the liquidation, dissolution and termination rights of the Board of the ICAV as set forth in the Prospectus, the Fund cannot be automatically terminated.

### Objectives:

The Fund aims to achieve capital protection and capital appreciation by providing a return against the Bank of England UK Base Rate ("Benchmark") of +0.5% on a rolling 1 year basis.

The Fund is actively managed and will invest in fixed income securities listed or traded on Recognised Exchanges worldwide. The investments of the Fund represent a fixed income credit portfolio. Fixed income is defined as a corporate or asset backed securities.

The core focus of the fund is to invest in government and/or corporate Investment Grade ("IG") securities, including fixed and/or floating rate debt securities.

There will be no leverage or short positions in the Fund.

The Fund will have a maximum duration of 1.5 years. Duration is the price sensitivity of the fixed income securities in the Fund to changes in interest rates, expressed as a number of years. At least 25% of the Fund's portfolio will be invested in securities which have final legal maturity within 1 (one) year.

All fixed rate securities must have expected maturity date of 3 (three) years or less. All floating rate securities must have expected maturity date of 5 (five) years or less.

The Fund may invest up to 100% of its Net Asset Value in government and/or corporate fixed income securities which are classified as Investment Grade ("IG") which means that securities have a credit rating AAA to BBB-.

At least 50% of the Fund's portfolio will be invested in securities rated AA on average and at least 25% will be invested in AAA.

Ratings will be determined by taking the average rating from Standard & Poor's, Moody's, Fitch or any other equivalent recognised rating agency.

The Fund may invest in covered bonds which are bonds issued by a bank or mortgage institution and collateralised against a pool of assets that, in case of failure of the issuer, can cover claims at any point of time.

Depending on the market conditions, the Fund, where considered appropriate by the Investment Manager, may be wholly invested in cash deposits and money market instruments.

The Fund may utilise derivatives for currency hedging purposes. Derivatives will not be used for investment purposes.

The Fund is considered to be actively managed in reference to the Bank of England's Base Rate by virtue of the fact that it aims to measure performance against the Index and to generate a return against the Bank of England's Base Rate plus 0.5% per annum on a rolling basis.

There is no geographical, industry or sectoral focus to the Fund.

This share class is an accumulating share class and, therefore, it is not currently intended to distribute dividends to the Shareholders.

You can buy and sell shares in the sub-fund on any week day on which commercial banks are open in Dublin and London.

The depositary is The Bank of New York Mellon SA/NV, Dublin Branch. ("the Depositary").
